CITY OF PALO ALTO  
UTILITIES

**RESIDENTIAL GAS SERVICE**

**UTILITY RATE SCHEDULE G-1**

**D. SPECIAL NOTES:**

**1. Calculation of Cost Components**

The actual bill amount is calculated based on the applicable rates in Section C above and adjusted for any applicable discounts, surcharges and/or taxes. On a customer's bill statement, the bill amount may be broken down into appropriate components as calculated under Section C. PG&E Local transportation charge is equal to the cost of transporting gas from the PG&E's City Gate to the Palo Alto City Gate.

**2. Seasonal Rate Changes:**

The Summer period is effective May 1 to October 31 and the Winter period is effective from November 1 to April 30. When the billing period includes use in both the Summer and the Winter periods, the usage will be prorated based on the number of days in each seasonal period, and the charges based on the applicable rates therein. For further discussion of bill calculation and proration, refer to Rule and Regulation 11.

**3. Calculation of Usage Tiers**

Tier 1 natural gas usage shall be calculated and billed based upon a level of 0.667 therms per day during the Summer Period and 3.2 therms per day during the Winter Period, rounded to the nearest whole therm, based on meter reading days of service. As an example, for a 30 day bill, the Tier 1 level would be 20 therms during the Summer Period months and 96 therms during the Winter Period months. For further discussion of bill calculation and proration, refer to Rule and Regulation 11.

**4. Special Conditions**

Service under this schedule is subject to discontinuance in whole or in part, for operational reasons or if the City experiences supply or capacity shortages. The City will exercise reasonable diligence and care to furnish and deliver continuous service and a sufficient quantity of gas to customers, but does not guarantee continuity of service or sufficiency of quantity. The City shall not be liable for any damage caused by interruption of service, if the interruption of service is caused by an act of God, Fire, Strikes, riots, war, or any other cause that is beyond the City's control.
