* FY 2022-2024 Appropriation Limits restated to correct for Total Adjustment Factor calculation error in those fiscal years.

On November 6, 1979, California voters approved Proposition 4, an initiative that added Article XIII B to the state Constitution. The provisions of this article place limits on the amount of revenue that can be appropriated by all entities of government. The Appropriations Limit is based on actual appropriations during the 1978-1979 fiscal year, as increased each year using specified population and inflationary growth factors.
