To City Council Members, ARB & Our Planning Commission -

I'm a Palo Alto resident who has lived on Churchill Avenue, across from Palo Alto High School, since 2003. I'm also a Casti parent and Trustee.

Thank you so much for your service and for leading our city through challenging times.

I am writing to ask your support for Castilleja's enrollment increase and CUP application. As a woman who has worked in the tech ecosystem for the past 20 years, I am acutely aware of the bias against, and the many challenges for women in tech, and far beyond, in our society. Castilleja plays a critical role in educating young women, and elevating more women to positions of influence for our future generations, so we can help reduce or hopefully eliminate the bias too many women have to endure in society.

I first heard of Castilleja when growing up in New Jersey, and then living in Boston/Cambridge as a student and grad student. As I crossed paths with Casti graduates over the decades, I learned of Palo Alto and its reputation as a place of outstanding intellectual talent. Casti is one of the most well-respected private schools in the country, even the globe. My husband and I were thrilled to move to Palo Alto and to have access to so many fantastic educational choices for our children.

Our family moved across from Palo Alto High School, so we have become quite familiar with construction projects and traffic jams. In the ~20 years we've lived here, PALY's construction, traffic and noise have increased significantly. We neighbors have never been given a forum to weigh in on construction, enrollment changes, school schedules, events, night football games, weekend band practices or the status of certain trees. It's not convenient at times, but it's what we signed up for when we moved across the street. PALY has been here longer than all of us, and is a gem that is vital to our community, like Casti. Our great schools, and giving our kids a chance to thrive and to positively impact the future, are part of the value of living in Palo Alto.

We've all watched for years the back and forth on this project, and witnessed Casti's team jump through hoop after hoop to try to satisfy the shifting demands of an extremely small minority of neighbors. I've come to believe that handful of residents just don't want the inconvenience of a project near their homes. This vocal minority

has kept coming up with objectives to try to 'run the clock' as well as cost the city lots of time and money. I'm hopeful you see the deep consideration and thoughtfulness of Casti's plan, and will approve the project to move forward expeditiously.

By supporting greater enrollment (with associated mitigation programs to manage neighborhood traffic), and enabling Casti to upgrade its outdated campus, you can make a difference in the lives of young women, in the pipeline of future leaders our world so badly needs, and continue to burnish Palo Alto's reputation as having the best schools in the country.

Thank you very much for your consideration.

Aileen Lee

Resident, [REDACTED] Palo Alto.
