

**CITY COUNCIL
Special Meeting
Saturday, January 28, 2023
Mitchell Park Library
El Palo Alto Room
9:00 AM
*Supplemental Report Added***

Pursuant to [AB 361](#) Palo Alto City Council meetings will be held as “hybrid” meetings with the option to attend by teleconference/video conference or in person. To maximize public safety while still maintaining transparency and public access, members of the public can choose to participate from home or attend in person. Information on how the public may observe and participate in the meeting is located at the end of the agenda. Masks are strongly encouraged if attending in person. The meeting will be broadcast on Cable TV Channel 26, live on YouTube <https://www.youtube.com/c/cityofpaloalto>, and streamed to Midpen Media Center <https://midpenmedia.org>.

VIRTUAL PARTICIPATION [CLICK HERE TO JOIN](https://cityofpaloalto.zoom.us/j/362027238) (<https://cityofpaloalto.zoom.us/j/362027238>)
Meeting ID: 362 027 238 Phone:1(669)900-6833

PUBLIC COMMENTS

Public comments will be accepted both in person and via Zoom for up to three minutes or an amount of time determined by the Chair. All requests to speak will be taken until 5 minutes after the staff’s presentation. Written public comments can be submitted in advance to city.council@CityofPaloAlto.org and will be provided to the Council and available for inspection on the City’s website. Please clearly indicate which agenda item you are referencing in your subject line.

PowerPoints, videos, or other media to be presented during public comment are accepted only by email to city.clerk@CityofPaloAlto.org at least 24 hours prior to the meeting. Once received, the Clerk will have them shared at public comment for the specified item. To uphold strong cybersecurity management practices, USB’s or other physical electronic storage devices are not accepted.

TIME ESTIMATES

Listed times are estimates only and are subject to change at any time, including while the meeting is in progress. The Council reserves the right to use more or less time on any item, to change the order of items and/or to continue items to another meeting. Particular items may be heard before or after the time estimated on the agenda. This may occur in order to best manage the time at a meeting or to adapt to the participation of the public.

2023 ANNUAL COUNCIL RETREAT PROGRAM

2. City Council 2023 Retreat: Discussion and Selection of 2023 City Council Priorities
Supplemental Report
 - 2A. Overview of the 2022 City Council Priorities

PUBLIC COMMENTS

BREAK LUNCH

- 2B. Selection of 2023 City Council Priorities
- 2C. Discussion and Possible Revision to 2023 Standing Committee Topics
- 2D. Retreat Debrief, Take Away and Next Steps

ADJOURNMENT

PUBLIC COMMENT INSTRUCTIONS

Members of the Public may provide public comments to teleconference meetings via email, teleconference, or by phone.

1. **Written public comments** may be submitted by email to city.council@cityofpaloalto.org.
2. **For in person public comments** please complete a speaker request card located on the table at the entrance to the Council Chambers and deliver it to the Clerk prior to discussion of the item.
3. **Spoken public comments using a computer or smart phone** will be accepted through the teleconference meeting. To address the Council, click on the link below to access a Zoom-based meeting. Please read the following instructions carefully.
 - You may download the Zoom client or connect to the meeting in- browser. If using your browser, make sure you are using a current, up-to-date browser: Chrome 30 , Firefox 27 , Microsoft Edge 12 , Safari 7 . Certain functionality may be disabled in older browsers including Internet Explorer. Or download the Zoom application onto your smart phone from the Apple App Store or Google Play Store and enter in the Meeting ID below.
 - You may be asked to enter an email address and name. We request that you identify yourself by name as this will be visible online and will be used to notify you that it is your turn to speak.
 - When you wish to speak on an Agenda Item, click on “raise hand.” The Clerk will activate and unmute speakers in turn. Speakers will be notified shortly before they are called to speak.
 - When called, please limit your remarks to the time limit allotted. A timer will be shown on the computer to help keep track of your comments.
4. **Spoken public comments using a phone** use the telephone number listed below. When you wish to speak on an agenda item hit *9 on your phone so we know that you wish to speak. You will be asked to provide your first and last name before addressing the Council. You will be advised how long you have to speak. When called please limit your remarks to the agenda item and time limit allotted.

Americans with Disability Act (ADA) It is the policy of the City of Palo Alto to offer its public programs, services and meetings in a manner that is readily accessible to all. Persons with disabilities who require materials in an appropriate alternative format or who require auxiliary aids to access City meetings, programs, or services may contact the City’s ADA Coordinator at (650) 329-2550 (voice) or by emailing ada@cityofpaloalto.org. Requests for assistance or accommodations must be submitted at least 24 hours in advance of the meeting, program, or service.

CITY COUNCIL STAFF REPORT

From: City Manager
Report Type: ANNUAL RETREAT PROGRAM
Lead Department: City Manager

Meeting Date: January 28, 2023

TITLE

City Council 2023 Retreat: Discussion and Selection of 2023 City Council Priorities

RECOMMENDATION

The Policy and Services Committee recommends that Council consider and select the 2023 City Council Priorities.

BACKGROUND

In October 2012, City Council approved Priority Setting Guidelines and outlined the role of the Policy and Services Committee in this activity. Per the Guidelines (CMR #3156)¹, a priority is defined as a topic that will receive particular, unusual and significant attention during the year. The Guidelines also set a goal of no more than three priorities per year, generally with a three-year time limit. The Guidelines state that "the Policy and Services Committee, each year at its December meeting, shall make recommendations about the process that will be used at the Annual Retreat paying particular attention to the number of priorities suggested by Council members."

At its December 13, 2022 meeting, the Policy and Services Committee discussed the 2022 Council Priorities, but no formal action was taken. The committee agenda packet can be found in Attachment A, and a video of the discussion and summary minutes are linked².

The 2022 Priorities, as selected at the City Council's Annual Retreat on February 5, 2022 are:

- Economic Recovery and Transition
- Climate Change: Protection and Adaptation
- Housing for Social and Economic Balance

Summary minutes: <https://portal.laserfiche.com/Portal/DocView.aspx?id=41549&repo=r-704298fc>

- Community Health and Safety

ANALYSIS

The annual priority setting process is informed by a variety of inputs:

- Council survey on suggested 2023 Priorities
- Recommendations from the Policy and Services Committee
- City Council adopted value statements
- Community survey on Council Priorities via Open Town Hall
- Palo Alto Community Survey conducted by Polco/National Research Center (NRC)

Together, the information helps guide the Council in selecting priorities that represent the community's values and helps staff focus the City's workplans for the coming year.

Recommendations from the Policy and Services Committee

The Policy and Services Committee met to discuss Council priorities in December 2022. While no action was taken to recommend specific priority areas, the Committee focused on suggesting guidelines the Council should consider when identifying the 2023 Priorities.

City Council adopted value statements

In order to aid in future retreats and priority setting processes, In November 2022 (CMR #14912)³ the Council adopted a set of value statements that represented long-term goals and vision for the community.

The Palo Alto City Council has universally shared values that help guide our decisions and the work we do. These values include:

- 1. We will make decisions that balance revenues and expenses, now and in the future.*
- 2. We will make decisions that are environmentally sustainable, now and in the future.*
- 3. We will integrate equity into our decisions, considering how decisions affect people differently based on their identity or circumstances.*
- 4. We will make decisions that create a healthy, safe and welcoming community for all.*
- 5. We will safeguard public trust through transparent practices and open communication.*
- 6. We embrace innovation.*

Acknowledging that no individual issue area is more important than another, the set of values recognizes a balanced and wholistic approach to Council policy setting.

Minutes: <https://www.cityofpaloalto.org/files/assets/public/agendas-minutes-reports/agendas-minutes/citycouncil-agendas-minutes/2022/20221107/20221107amccsm.pdf>

Community Survey on Council Priorities via OpenGov Open Town Hall

In addition to soliciting the City Council for suggestions on City Council 2023 Priorities, staff also released an OpenGov Open Town Hall to gather additional community input. A summary of the results and individual survey responses can be viewed in Attachment B.

Palo Alto Community Survey conducted by Polco/National Research Center (NRC)

Conducted annually or biennially, the survey is used to gain insights into residents' perspectives about the community, including local amenities, services, public trust, resident participation, and other aspects of the community. Per the Council's request, the Community Survey is scheduled to be presented on January 23, 2023⁴, early enough for the results to be available as a resource at the retreat.

STAKEHOLDER ENGAGEMENT

The community and the City Council have been solicited for their input and suggestions regarding the priorities. The community weighed in through the Open City Hall survey platform as well as the ability to send emails to the City Council through city.council@cityofpaloalto.org.

ENVIRONMENTAL REVIEW

Council action on this item is not a project as defined by CEQA because the Council Retreat and discussion on 2023 Priorities is a continuing administrative or maintenance activity. CEQA Guidelines section 15378 (b)(2).

City of Palo Alto

Policy and Services Committee Staff Report

(ID # 14897)

Meeting Date: 12/13/2022

Report Type: Action Items

Title: Policy and Services Discussion and Recommendations for the 2023 City Council Priority Setting Process

From: City Manager

Lead Department: City Manager

Recommendation

Staff recommends that the Policy and Services Committee discuss and forward for Council consideration recommendations on the 2023 priority-setting session tentatively scheduled for January 28, 2023.

Background

In October 2012, the City Council approved Priority Setting Guidelines (CMR #3156) and outlined the role for the Policy & Services Committee in this activity. Per the Guidelines (**Attachment A**), a priority is defined as a topic that will receive unusual and significant attention during the year. Additionally, there is a goal of no more than three priorities per year, generally with a three-year time limit.

The 2022 Priorities, as selected at the City Council's Annual Retreat on February 5, 2022¹ are:

- Economic Recovery and Transition
- Climate Change – Protection and Adaptation
- Housing for Social and Economic Balance
- Community Health and Safety

Prior years' priorities are found in **Attachment B**.

Also at the February 5, 2022 City Council retreat, the City Council referred to the Policy and Services Committee development of a set of values for City Council consideration to aid in future retreats and priority setting processes. The Committee made a recommendation on City

¹ CMR #13997: <https://www.cityofpaloalto.org/files/assets/public/agendas-minutes-reports/agendas-minutes/city-council-agendas-minutes/2022/20220205/20220205pccsm-retreat.pdf>; Minutes: <https://www.cityofpaloalto.org/files/assets/public/agendas-minutes-reports/agendas-minutes/city-council-agendas-minutes/2022/20220205/20220205amccs.pdf>

Council values at their September meeting² and the City Council adopted a values statement in November:³

The Palo Alto City Council has universally shared values that help guide our decisions and the work we do. These values include:

1. *We will make decisions that balance revenues and expenses, now and in the future.*
2. *We will make decisions that are environmentally sustainable, now and in the future.*
3. *We will integrate equity into our decisions, considering how decisions affect people differently based on their identity or circumstances.*
4. *We will make decisions that create a healthy, safe and welcoming community for all.*
5. *We will safeguard public trust through transparent practices and open communication.*
6. *We embrace innovation.*

Discussion

As set forth in the Priority Setting Guidelines: The Policy and Services Committee, each year at its December meeting, shall make recommendations about the process that will be used at the Annual Retreat paying particular attention to the number of priorities suggested by Council members. The recommended process is to be forwarded to Council for adoption in advance of the Council retreat.

Staff emailed current City Council members and City Council member-elects requesting their suggestions for priority topics to be included. Recognizing the volume and nature of ongoing work on the current (2022) priorities, staff also suggested that if the 2022 priorities might be retained with limited refinement, a portion of the retreat could be allocated to deeper discussion of the projects being advanced for each priority.

The initial City Councilmember priority suggestions received as of the date of report preparation are listed below in alphabetical order:

1. Cormack: For a new priority, add "Redevelop Cubberley Community Center"; for a retained priority, "Climate action mitigation and adaptation"
2. Lauing: Maintain current priorities
3. Lythcott-Haims:
 - a. Avoid Triggering Builders Remedy

² CMR #14731: <https://www.cityofpaloalto.org/files/assets/public/agendas-minutes-reports/agendas-minutes/policy-and-services-committee/2022/20220913/20220913ppsr.pdf>; Minutes: <https://www.cityofpaloalto.org/files/assets/public/agendas-minutes-reports/agendas-minutes/policy-and-services-committee/2022/20220913/20220913ampsr.pdf>

³ CMR 14912: <https://www.cityofpaloalto.org/files/assets/public/agendas-minutes-reports/agendas-minutes/city-council-agendas-minutes/2022/20221107/20221107pccsm-amended-linked-q.a-2.pdf>

Minutes: <https://www.cityofpaloalto.org/files/assets/public/agendas-minutes-reports/agendas-minutes/city-council-agendas-minutes/2022/20221107/20221107amccsm.pdf>

- b. Develop Area Plans for regions slated to get bulk of housing
- c. Determine Grade Separation Designs

Suggestions and comments from community members are also being solicited. It will remain open and available to the community for inclusion at the Council retreat in January. At the retreat, the community can also attend and share their input on Council priorities at the meeting. The purpose of this engagement is to help inform the City Council on priorities for the upcoming year.

Based on the feedback received to date, staff recommends that a portion of the retreat be allocated to deeper discussion of the projects being advanced for each of the 2022 priorities. Time permitting, this will facilitate prioritization of projects not yet underway within each priority. We also recommend that the City once again secure the services of Mary Egan with MRG to facilitate priority setting.

Timeline, Resource Impact, Policy Implications

No additional resource impact is expected at this time. This discussion will inform the annual City Council retreat, which is tentatively scheduled for January 28, 2023.

Stakeholder Engagement

Staff sought input from City Council members and City Council member-Elects. Staff will also seek input from the community on the Council's priorities via the Open Town Hall survey which will be released in December. At the retreat, the public can also attend and share feedback at the meeting or directly email the Council.

Environmental Review

This is not considered a project as defined by CEQA and no review is required.

Attachments:

- Attachment A-Priority Setting Guidelines
- Attachment B-Past Council Priorities

City Council Priority Setting Guidelines

Approved by City Council: October 1, 2012
Last revised: October 1, 2012

Background

The City Council adopted its first Council priorities in 1986. Each year the City Council reviews its priorities at its Annual Council Retreat. On October 1, 2012 the City Council formally adopted the definition of a council priority, and the Council's process and guidelines for selection of priorities.

Definition

A Council priority is defined as a topic that will receive particular, unusual and significant attention during the year.

Purpose

The establishment of Council priorities will assist the Council and staff to better allot and utilize time for discussion and decision making.

Process

1. Three months in advance of the annual Council Retreat, staff will solicit input from the City Council on the priorities to be reviewed and considered for the following year.
 - a. Council members may submit up to three priorities.
 - b. Priorities should be submitted no later than December 1.
 - c. As applicable, the City Manager will contact newly elected officials for their input by December 1.
 - d. The City Clerk will provide timely notice to the public to submit proposed priorities by December 1. The Policy and Services Committee shall recommend to the Council which suggestions if any shall be considered at the City Council retreat.
2. Staff will collect and organize the recommended priorities into a list for Council consideration, and provide to Council no less than two weeks in advance of the retreat.
3. The Policy and Services Committee, each year at its December meeting, shall make recommendations about the process that will be used at the Annual Retreat paying particular attention to the number of priorities suggested by Council members. The recommended process is to be forwarded to Council for adoption in advance of the Council retreat.

Guidelines for Selection of Priorities

1. There is a goal of no more than three priorities per year.
2. Priorities generally have a three year time limit.

ATTACHMENT B

Past Palo Alto City Council Priorities, By Year for the last six years:

2022

- Economic Recovery and Transition
- Climate Change – Protection and Adaptation
- Housing for Social and Economic Balance
- Community Health and Safety

2021

- Economic Recovery
- Housing for Social and Economic Balance
- Social Justice
- Climate Change – Protection and Adaptation

2020

- Housing, with special emphasis on affordability
- Sustainability, in the context of the changing climate
- Improving mobility for all

2019

- Climate Change
- Grade Separation (choose preferred alternative by end of the year)
- Traffic and Transportation
- Fiscal Sustainability

2018

- Transportation
- Housing
- Budget and Finance (create an infrastructure funding plan)
- Grade Separation (choose preferred alternative by end of year)

2017

- Transportation
- Housing
- Infrastructure
- Healthy City, Healthy Community
- Budget and Finance

Attachment: Attachment B-Past Council Priorities (14897 : 2023 Priority Setting Process)

ATTACHMENT C**OpenGov Open Town Hall Community Survey Results on 2023 Council Priorities**

To support the City Council's discussion on priorities, the City releases an online survey seeking community input on priorities for the year. This online survey is one data point to complement other feedback channels to assist and inform the City Council's discussion. Other feedback channels include efforts such as the Community Satisfaction Survey (to be discussed by the Council on January 23, 2023), Neighborhood Town Halls and other community engagement efforts planned annually, direct input to the Council via email and feedback through participation at City Council and Boards, Commissions and Committee meetings.

In addition to soliciting the City Council for suggestions on City Council 2023 priorities, staff released the OpenGov Open Town Hall survey in early December 2022 and closed the survey on January 18, 2023. The original survey deadline was January 9, 2023, and staff extended the deadline to January 18 due to recent storm events and incidents. The survey forum had 270 visitors to the webpage and gained 136 specific community responses.

Overall, this year's survey was structured differently than past years to gain additional feedback on community perceptions of each of the 2022 Council priorities. The full report including individual responses can be viewed in this attachment.

Summary of the Specific Survey Questions

- Question 1: How are we doing on the current 2022 City Council Priorities?
- Question 2: Please rate how we are doing on the 2022 Priority "Economic Recovery and Transition" [5 being the best]*
- Question 3: What should the City be doing differently for "Economic Recovery and Transition"?
- Question 4: Please rate how we are doing on the 2022 Priority "Climate Change - Protection and Adaptation" [5 being the best]*
- Question 5: What should the City be doing differently for "Climate Change - Protection and Adaptation"?
- Question 6: Please rate how we are doing on the 2022 Priority "Housing for Social and Economic Balance" [5 being the best]*
- Question 7: What should the City be doing differently for "Housing for Social and Economic Balance"?
- Question 8: Please rate how we are doing on the 2022 Priority "Community Health and Safety" [5 being the best]*
- Question 9: What should the City be doing differently for "Community Health and Safety"?

- Question 10: What other feedback would you like to share about the 2023 City Council Priorities?

*As noted above, the community was asked to rate on a scale of 1 to 5, with 5 being the best, how the City was doing for each of the 2022 Council Priorities (See Questions 2, 4, 6, 8). The OpenGov report is limited and only offers an average of ranking information. As such, staff is synthesizing this data and will provide a supplemental report next week in advance of the Council's retreat that provide a fuller spectrum of the rankings to further inform Council's work.

In addition to the overall ratings on how the City is doing on each 2022 priority, community members were asked to provide feedback on what the City could be doing differently for each focus area, which could provide insight on potential focus for the existing priorities should the Council want to keep the 2022 Council Priorities for 2023.

Summary of Specific Feedback on 2022 Council Priorities and Other Priorities

The following summary shares key themes (listed by 2022 Priority Areas and are in no particular order):

Economic Recovery and Transition

- Focus on small business, supporting business in general, and creating a more business-friendly city
- Increase service levels in Planning
- Diverse opinions on increasing business taxes and reducing or eliminating business taxes)
- Fill vacant retail and office spaces
- Have more events and fun/entertainment options
- Diverse opinions on keeping streets closed and to re-open closed streets

Climate Change – Protection and Adaptation

- More resources for climate change programs
- Expand Safe Routes to School and other mobility items
- Strengthen public transportation, active transportation, and bike infrastructure
- Increase recreation and open space
- Focus on electrification
- More electric vehicle charging incentives and options
- Focus on S/CAP execution
- Replace Pope/Chaucer and Newell Creek bridges and address flooding issues

Housing for Social and Economic Balance

- Diverse opinions on increasing and building more housing and removing housing as a priority for the Council in the coming year
- Transit-oriented development – housing near jobs, shopping, services, transit
- Make affordable housing easier, less expensive to build
- Affordable and affordable senior housing
- Rent control
- Remove short-term rentals
- Approve a compliant Housing Element
- Promote more types of housing (multi-family, small apartment, ADUs)
- Convert office space and empty buildings to housing
- Establish short-term housing options for homeless population
- Safe RV parking program

Community Health and Safety

- More focus on Public Safety
- Reduce airplane noise and traffic
- Improvements to major thoroughfares and other infrastructure (road conditions, crosswalks, sidewalks, bike-ability, tree upkeep)
- More wellness programs
- Budget for more police officers and firefighters
- More police presence in the community
- Emphasis on residential burglaries and criminal activity
- Code enforcement (leaf blowers, parking, speeding)

Other Identified Themes

- More public services for the low-income community
- Move forward with the Grade Separation project
- Hire more staff resources in these areas: Transportation, Planning, Police, Fire, Palo Alto Junior Museum & Zoo and Human Resources
- Focus on local issues only
- Balanced focus of priorities geographically across the City
- Address car traffic along major arteries
- Less focus on electrification and reducing natural gas use
- Diversity of representation on Council, Boards & Commissions, working groups, and staff
- Several residents recommended that Climate Change, Housing, and Community Health & Safety should not be priorities.
 - Some feedback included climate change issues should be left to the state and federal government.

ITEM 2

ATTACHMENT B- OpenGov Open
Town Hall Survey Summary Report

- Removing housing was sometimes related to including it in addressing climate change or removing it until other services were established.
- Many simply stated Climate Change, Housing and Community Health & Safety shouldn't be priorities without a reason given.

Question 1

Need more resources to meet climate change goals.

Question 2

5

Question 3

No response

Question 4

1

Question 5

Allocate more resources to reduce auto dependency and add housing.

Question 6

3

Question 7

Allow higher buildings, unbundle parking, and do more to make affordable housing cheaper to build.

Question 8

3

Question 9

Fund the police traffic team, remove on-street parking to build a network of protected bike lanes, expand the Safe Routes program to high school, initiate a similar program for adults, initiate a Cycling without Age program.

Question 10

Increasing the number of EVs in town alone will not get us to our S/CAP goals. Hire more transportation staff to implement our S/CAP mobility goals. This will serve our increasingly older population by reducing auto dependence.

its own self.

Question 6

5

Question 7

It should sue the state for its absurd housing targets and force Stanford to put housing on its land, not remove housing from PA and our tax rolls.

Question 8

1

Question 9

Hire more police.

Question 10

Force the 2 new former Stanford employees on City Council to recuse themselves on all Stanford-related decisions like you've forced members of PAN to recuse themselves

Name not available

December 8, 2022, 1:50 PM

Question 1

Fair

Question 2

3

Question 3

acknowledge that we need to provide more housing and actually take concrete steps to do that so that more people can afford to live here and support our economy. More housing -> stronger economy

Question 4

3

Question 5

Company the city uses for landscape services at all its city parks and City Hall uses gas powered blowers EVERY DAY, even though this is technically not allowed in the city. But city does nothing about it.

Question 6

1

Question 7

Not spend so much time focused on what the NIMBYs want. We need more affordable housing, for workers and for seniors who would like to stay here.

Question 8

3

Question 9

Police never enforce the gas blower ban, or the fact that bikes speed through the Cal Ave pedestrian tunnel despite the sign that says they should walk their bikes. Yet the police always claim they are "so busy". Why not put some resources towards these items as a start, to show what they are actually spending their time on.

Question 10

Many families here have working parents who cannot attend various City meetings, due to the hours their job requires, or looking after their families. So the people the City Council hears from are retirees and NIMBYs, who have an unbalanced effect on city priorities. Try to get out to hear from families more - by having a meeting at a school, or meet on weekends at a city park or somewhere these citizens are likely to be. Prioritize hearing from ALL residents, not just a few

Name not available

December 8, 2022, 2:33 PM

Question 1

Good. I think the council has been fiscally responsible while making improvements in the city.

Question 2

4

Question 3

It feels like the city is focused on solving the housing problem by focusing on the southern end of the city. I would strongly prefer a more balanced approach to include the northern transit station at a minimum.

Question 4

3

2023 City Council Priorities

Share Input on the 2023 City Council Annual Priorities

Question 5

I appreciate that the city attempted to find out how much of our recycling is actually recycled. However, I think the city needs to do a lot more in this area or people will stop recycling.

Question 6

1

Question 7

As previously stated, new housing should be balanced throughout the main transit corridors of the city. I do not object to larger apartment/condo buildings near El Camino and the train stations/bus stations. To the extent it's possible I would prefer the neighborhoods to retain their housing character without the influx of lots of duplexes or even apartment buildings amongst single family homes. To add housing without overwhelming traffic use a smaller footprint near transit.

Question 8

4

Question 9

No response

Question 10

The city needs to accommodate more housing with much better public transit, better biking options and improvements to major thoroughfare roads. It is really worrisome that the city will have an explosion of housing without those improvements, which will only lead to gridlock. The city needs to address some additional car traffic on El Camino, University, Embarcadero, Oregon Expressway/Pagemill and San Antonio Road. This will be expensive and take longer than public transit and biking options but will be a necessary addition in the long run.

Name not available

December 8, 2022, 3:00 PM

Question 1

The priorities seem to reflect the greatest needs of the city in the current moment.

Question 2

3

Question 3

Encouraging more small, local businesses to open up shop.

Question 4

4

Question 5

Keep up the good work.

Question 6

2

Question 7

We can't have social and economic balance if renting or owning a home is limited to a small section of the population.

Question 8

4

Question 9

Sadly, I think the focus on infrequent crimes by the media colors the public's perception of safety in town. Making strides toward a more balanced income distribution and more stable, affordable housing options locally and regionally would go a long way in addressing the rare crime that occurs in Palo Alto.

nothing

Question 6

3

Question 7

make actions match the rhetoric

Question 8

3

Question 9

i don't really know what is being done, but the new police chief is a great start

Question 10

keep them the same

Name not available

December 8, 2022, 11:39 PM

Question 1

The city has been too fiscally conservative. More, and better quality, staff should be hired and trained to support comprehensive planning for population growth in areas that are being upzoned. If we don't get the transportation piece right, our economy will suffer. The necessary comprehensive planning and thinking just isn't being done. Grade separations are a key example. The grade separation projects seem to be considered piecemeal, rather than as a set and in context of planned growth. The consultant is not very good, and they don't seem to be well managed.

Climate change, Housing and Social Economic Balance, and Community Health & Safety, to my mind, all relate to alternative transportation, particularly active transportation. The city has done very little in this area this year.

Question 2

2

Question 3

Work with businesses on a plan to spend tax dollars to serve them better IF they will support a larger business tax. They are going to be unhappy, and might move out, when they figure out how poor planning is going to negatively impact local work commutes. Failure to plan comprehensively is bad for businesses and the economy.

Question 4

3

Question 5

Too much emphasis on electric cars. Focus more on smaller e-vehicles and building heating systems.

Question 6

3

Question 7

The city has been responsive to state housing mandates with the Housing Element, but it has completely failed to plan for social and economic balance--which will be negatively impacted by failure to plan for trips and community services.

Question 8

3

Question 9

What has the city done to improve community health and safety? Really, I don't know.

Question 10

Comprehensive planning, comprehensive planning, comprehensive planning.....We need people who know how to do comprehensive planning on our staff.

in Barron Park

December 9, 2022, 10:23 AM

Question 1

The City Council continues to focus on unproductive and wasteful activities.

Question 2

1

Question 3

Is the City doing anything to help economic recovery? It appears to be doing just the opposite - like supporting a tax on business. Instead doing everything possible to discourage businesses, the Council should be looking for ways to make Palo Alto business-friendly.

Question 4

1

Question 5

Everyone is an expert on climate change and many think that having Palo Alto do everything "right" (read as politically correct) is ok - it is not. We should NOT be discouraging use of natural gas - use of natural gas is a great stepping stone toward cleaner energy. We are fortunate as a country to have an abundance of natural gas that we can use to transition to cleaner energy. Instead we are cramming down technologies on to our citizens that are not yet economically viable and make housing MORE expensive and makes Palo Alto a more expensive place to live.

Question 6

1

Question 7

The City should be doing the bare minimum as the voters have abdicated

2023 City Council Priorities

Share Input on the 2023 City Council Annual Priorities

local control of housing to the State - shameful - such laws should be repealed. California population is decreasing - for a number of different reasons - and the State is giving us no reason to think that the trend will be reversed. Whatever model the State is using....it is wrong. So, until the voters wake up - do just enough to avoid lawsuits.

Question 8

1

Question 9

There is no question that our citizens are being increasingly victimized by crime - again, our City Council is thinking more about reducing and policing our police force than supporting and increasing our police force. And as our city is forced into providing more "Housing for Social and Economic Balance", so will the need for proportionately MORE police, not less. The Council's focus is off 180 degrees.

Question 10

I cannot offer feedback to Council members that are more focused on political correctness and their political careers than the well-being of the citizens of our City - for that feedback would fall on deaf ears.

December 9, 2022, 10:40 AM

Question 1

Completed 12 Priorities, ongoing 42 and dropped 11, is not a great record of completion.

Question 2

3

Question 3

Move faster. I have seen how quickly things have been able to change in Palo Alto. This has been an extremely slow year!

Question 4

2

Question 5

NOTHING has been achieved when 0 of the goals have been completed, the results speak for themselves. At least there are still 8 ongoing goals.

Question 6

3

Question 7

Again the numbers speak, 8 goals completed, 7 ongoing and 9 dropped. Come on folks, we can move faster to solve these problems.

Question 8

2

Question 9

Why is this so difficult. The citizens have spoken, the council has mandated, and the action is too little and too slow.

Question 10

Let's start making valuable progressive changes which enhance the experience of living in Palo Alto. Why do we drag our feet at every decision??

Name not shown

in Community Center

December 9, 2022, 11:05 AM

Question 1

No response

Question 2

No response

Question 3

Let's bring Palo Alto in line with other nearby communities in regard to closed pedestrian-friendly streets. We are missing out by not moving quickly to create closed pedestrian areas now. By creating so many requirements for parklets, we are making this very difficult and expensive for restaurants and cafes to have outside areas. Parklets are only small areas, and while they are nice, they are still missing the point -- the great benefits of closing streets. Less noise, less pollution, more attractive -- build it and people will come! The city should be more supportive of this and move on this now. The one good thing to come from the COVID pandemic was the fantastic increase in outdoor dining and seating areas, something I've always hoped for. Let's not lose that! (I am not affiliated with any businesses in Palo Alto; I'm a long-time resident.)

No response

Question 1

Mixed

Question 2

No response

Question 2

3

Question 3

No response

Question 3

Well, really not much the city can do for the macro aspect of Economic Recovery. Things have bounced back, traffic picked up, people are going to restaurants, etc. If possible, put service levels back to pre-pandemic levels where needed and increase if warranted, such as the planning department.

And somehow get pension costs under control because that is sucking up way too much money that could be going to other uses.

Question 4

1

Question 4

1

Question 5

Please facilitate and accelerate the support for ev charging. It is pathetic now. I applied for an ev installation in May and have not gotten any installation yet.

The water and gas utility charges are way too high. We want to have a nice looking place with flowers, trees and fruit and it is costing us \$512 for water for the month of November including a \$218 water distribution? charge; this is much higher than neighboring cities. Gas costs are \$213 including a \$107 service charge? for November and the price per therm is up 12.2% from last year!!.

Question 5

Not discouraging solar. Your utility department seems to be taking the attitude of the large IOU's when it comes to residential solar. Making setback changes so quiet electric heat pumps can be installed (legally as I know several put in just ignoring requirements by a foot or so) because when many of the setbacks were established in the 1950's climate change was not an issue. A little thing but keeps people like us

Question 6

2023 City Council Priorities

Share Input on the 2023 City Council Annual Priorities

from installing said heat pumps and may need to put in a new gas furnace as ours is almost at the end of its usable life.

Question 6

3

Question 7

Banish Airbnb's. If the housing stock sucked up by the short-term rentals was put back into play bay area wide, it would make a big difference without building anything new.

Concentrate new housing in the downtown areas or El Camino Real or San Antonio. Convert Palo Alto Square buildings to housing. Or build another building or two of Condos there the same height as there is plenty of parking and space. Parking is needed as any fantasy of people not driving belongs to a very small minority of activists who yell loudly and seem to think everyone agrees with them.

Good luck on affordable housing as the only way is for government to fund such housing. I see no huge surplus of monies for that right now. All other funding sources make somebody else pay for "affordable housing" one way or another. And taxes in California have driven people elsewhere in the country so raising more for "affordable housing" by taxing the rest of us will further the exodus or revolt.

Question 8

2

Question 9

You (city of Palo Alto) cannot fully control people's behavior so quit trying. Health issues really belong at a higher, better funded government level and/or left to individuals. The city cannot defeat Covid. Or the Flu or RSV, etc.

Safety - E-bikes are okay if kept on paved streets, not hacked to go 35-40 mph. The not okay side, I see E-bikes going through stop signs at 25 mph on a regular basis as I live right next to a corner with a quasi-lot of residential and cut through traffic. They are a menace on trails. They should be licensed like I had to license my moped back in the early 1980's. And regular bikes need to stay in the street and off the sidewalks.

Train crossings need to be picked, funded and built. That would enhance the greater community, health, safety and livability. Don't know if I will live to see it done.

Reinstate free shuttle - the custom door to door shuttle concept is great.

Question 10

Basics of local government should be emphasized. Infrastructure, police, fire, running utilities efficiently, departments serving the public staffed and available. Our little city cannot solve the world's problems but can serve the citizens who live here well. Do that!

Name not shown

Question 1

The big challenge we have is maintaining quality of life in a changing climate. Overzealous population growth policies driven by Sacramento are partially to blame, but the City and staff of Palo Alto need to push back harder. We are in an era of reduced availability of natural resources. If we want to maintain quality of life we need to reduce population, not increase population!

- 1) Increase space reserved for recreation and open space.
- 2) Reduce water recycling and conservation efforts that put environment at risk and enable population density increase.
- 3) Make a formal plan for population decrease in Palo Alto. World population is nearing a peak, US population is nearly stagnant, CA population is nearly stagnant, why are we planning for population density

2023 City Council Priorities

Share Input on the 2023 City Council Annual Priorities

increase in a natural environment where key resources including water, energy and food are increasingly scarce?

Question 2

4

Question 3

Plan for population density decrease, not increase.

Question 4

1

Question 5

Climate change means reduced availability for resources including water, energy, food and open space to support both humans and the natural environment that defines "Quality of Life". With resources increasingly scarce we need to engineer towards a REDUCTION in human population NOT an INCREASE in population

Question 6

1

Question 7

Social and Economic Balance is important and an admirable goal. The root cause of social and economic imbalance though is not expensive housing and lack of housing. The root cause is California's choice to NOT invest in education for our own citizens and instead import people primarily from other US states. The people coming in from other states are primarily highly educated and well paid driving up housing prices. Result is that our own California children are leaving the state in record numbers. CA is well below median per-pupil spending at 27th up from a nadir of 47th in 2012 with HUGE imbalances by district.

Palo Alto should:

- 1) Reduce housing
- 2) Increase # of EPA students accepted in to PA schools by providing city funding to school district.
- 3) Focus on increasing opportunity not on increasing equality.

Question 8

2

Question 9

Apple store downtown PA has been broken into how many times?
We hardly feel safe walking downtown after dark.
Cars are routinely broken into even in otherwise quiet neighborhoods
People are living in vehicles on the street.

- 1) Pass and enforce law against living in vehicles on street.
- 2) Install police cameras throughout the city and strictly enforce traffic violations
- 3) Increase police force and spending
- 4) Make our city safe again.

- 1. Build out Fiber network - keep focus on executing well
- 2. Economic Development
- 3. SCAP execution

David Coale

in Barron Park

December 12, 2022, 7:30 PM

Question 1

Pretty well all things considered. Finally we are getting some real work done on the SCAP and addressing climate change but we have a lot to do between now and 2030 to meet our 80 X 30 goals. We will have to have climate change in the mix for next year so that we can continue this good work and transition from an Ad Hoc Committee to the next step.

Question 2

3

Question 3

Hiring more staff to get City programs going, especially in the area of transportation and staff needed to upgrade the electrical grid.

Question 4

4

Question 5

More actions faster. Put the Palo Alto process aside and meet the challenge head on. Climate change is not waiting around for Palo Alto to get it perfect.

Question 6

3

Question 7

Some how shorted the cycle from project to building.

Question 8

No response

Question 9

No response

Question 10

City priorities

1) Climate change with a focus on electrification and transportation. This would include grid upgrades for electrification and updating the Bike-Ped plan and putting this in to place. With the very successful Ad Hoc

2023 City Council Priorities

Share Input on the 2023 City Council Annual Priorities

committee's work, it is essential to see this through to the next step, commission or otherwise to ensure this vital work continues.

2) Transportation: Rail crossings and bike/ped infrastructure. This will dovetail into item one to get people out of their cars to reduce our fossil fuel use and make for a more livable city, less dependent on car travel of any kind. This would be guided by a Safe Systems approach for transportation planning at all levels where safety comes first. This includes three cross-town bike/ped crossings of Alma and the train tracks at Seal Ave, Matadero creek and south Palo Alto before the rail crossings go in.

3) Housing for all. This also includes items one and two above and should be integrated as such. If Palo Alto can help house the people that work here and have safe ways of getting to work without a car, we will all be much better off; healthier and happier.

While these priorities have come up before in many ways, a truly integrated approach between all three with the goal of addressing climate change is what we need to make the city the best that it can be. The vision of a city that houses our teachers, city workers and essential workers in livable, walkable neighborhoods with vibrant town centers an easy bike ride a way, all the while cohabiting our planet in a way that will ensure a livable Earth for generations to come is a vision I think we can all get behind.

Arnout Boelens

in Midtown/ Midtown West

December 13, 2022, 11:25 AM

Question 1

Reasonably well

Question 2

3

Question 3

Overall, Council cannot do much about the economic climate.

Considering the City budget, I would have liked to see a higher business tax.

Question 4

3

Question 5

Good progress on home electrification.

However, no significant progress on reducing transportation emissions, which is the largest source of GHG emissions. I would like Palo Alto to be more aggressive in reducing car dependency and discouraging car usage.

Question 6

3

Question 7

I would like to see increased housing density all over Palo Alto instead of only South PA where there are no facilities and amenities. Abandoning free parking requirements would also be great.

Question 8

1

Question 9

Not sure what Council has accomplished.

Question 10

I would like Council to focus on increasing road safety for all road users, adopt a Safe Systems policy, and make funding available to fix all our hazardous roads.

Neilson Buchanan

in Downtown North

December 15, 2022, 9:00 AM

Question 1

i am not sure. Need some sort of dashboard

Question 2

4

Question 3

Too early to know. The Dow today is bouncing down 700+ points for investors. This region usually does better but who knows. State and local government tracks the general markets eventually.

I am impressed with PA budgeting and caution. The outgoing Council has demonstrated reasonable balance between optimism and caution. Most

2023 City Council Priorities

Share Input on the 2023 City Council Annual Priorities

other councils seem to be in similar frame of mind but it is difficult to determine with greater newspaper analysis.

Question 4

3

Question 5

I really know know the composite budget and actual spending for past years or next year. Plans are at least a 5. Ability to implement is much lower.

Question 6

3

Question 7

The debate about affordability lacks focus and is not reaching many voters. The next Council will face the reality of what any city can accomplish. There are at least three levers. #1 Capital entering the stratas of housing markets. #2 Capital from government support sources to support non-market rate housing for complex layers. Funds to operate this housing is a hurdle too. #3 Zoning changes None of the local cities have been open about the private and public market timeframes to build and open hundreds of new housing units. The infrastructure investment to support this housing will remain unaddressed. Similarly public transportation will snarl up any form of "rationalized" housing growth.

Question 8

3

Question 9

Traditional healthcare is acceptable to good for most people. Lower income citizens and their provider system are always at risk. This risk is growing due to cost of living pressures on providers.

Adequate mental health and social service support has always been seeking funding and providers. These will be shakier until post-covid needs abate.

Question 10

Limit priorities and focus on programs within PA's ability to make a marginal difference. PA Council tends to over-commit and spread resources too thinly.

Examine the potential for intercity programming for health and social

needs. In general the narrow neck of the Peninsula has smaller cities and towns without economies of scale. Sequoia Hospital District understands how to address limited resources and has innovative results. Smaller city governments in the US do not have strong track records with health and social services.

No response

Question 8

5

Question 9

The effort and recognition of Altaire Walk 's crime problems made by Mayor Pat Burt, Council Members Greer Stone, Eric Filseth were commendable. Special attention and support was given to us by Council Member Greg Tanaka and retired PAPD Chief Jonsen. Since last January , we had gone from near weekly thefts of mail, packages, bikes, electronics to only one attempt this month. Thank you. We hope to continue open lines of communication between the newly elected Council members and Chief Binder. It has helped.

Question 10

See above.

Name not available

December 16, 2022, 7:44 AM

Question 1

No response

Question 2

2

Question 3

Have more open streets events and community events. Get people out and about, spending money and seeing their neighbors. Build more housing near Stanford, Cal Ave, and University (our economic engines)! Office jobs are likely to never come back fully given current remote-work trends. This creates a a spiral where businesses will never recover, property values will dip, and the city's bottom line will bleed. Building A LOT more housing puts residents where the office workers were, increases property values, facilitates more interesting retail and service opportunities (more foot traffic), and makes us a stronger community.

Question 4

2

Question 5

Facilitate more bike and transit trips (more than half of our GHG emissions are transportation-related) with better/more infrastructure, slower streets, lower car parking requirements (i.e. ELIMINATE PARKING MINIMUMS LIKE OTHER CITIES ARE DOING), more bike parking all over the city, and rezone sites immediately to build lots of high-density housing near Stanford, Cal Ave, and University - so people don't have to drive.

Question 6

1

Question 7

Rezone sites, eliminate density maximums, eliminate parking requirements, adopt a compliant Housing Element (we are very very far from that right now).

Question 8

3

Question 9

Take back on-street car parking (a private good on a public street for free

2023 City Council Priorities

Share Input on the 2023 City Council Annual Priorities

is madness) and use it for safe bike lanes so people of all ages can bike and be healthy and safe. 60% of folks say they would like more but don't feel safe. I can think of no other traffic improvement that would remove 60% of vehicle traffic from roads than building safe bike lanes. Palo Alto used to be a leader on this front, we have so lost our way. Lets be a leader again!

Question 10

Adopt and implement a compliant housing element, including significant rezoning of areas of the city where density is appropriate (i.e. near transit). Though at this point, I will take housing even where it makes no sense (out near 101 in the Bayshore area).

Name not shown

December 16, 2022, 10:22 AM

Question 1

Ok on Sustainability, not good on housing and economic recovery.

Question 2

2

Question 3

Provide a pedestrian friendly - event centric University Ave. Provide for more entertainment options (things we can't get online).

Question 4

4

Question 5

Have specific plans on how we're going to meet our 80x30 goal with annual benchmarks. Need better communication of goals to residents and get them engaged more. Residents don't understand why sustainability is important on a personal, household level.

Question 6

2

Question 7

Make sure the Housing Element is compliant and SPEED UP THE permitting process for new housing. Utilize parking lots for housing.

Question 8

3

Question 9

Engage more with residents on diversity - promote diversity of ages, ethnicities, incomes. Provide more for low-income residents.

Question 10

Many times the Priorities are a lot of talk and no action (esp on housing). Hope the new Council can eliminate the Palo Alto Process. Too many older, conservative and retired people have undue influence - they do not necessarily speak for the community yet are the ones who show up as they have the time and resources. So easy to say "no" and gum up the works. We need PROGRESS!

Mary Beth Train

in Palo Verde

December 18, 2022, 12:06 PM

Question 1

Middling. Seem to spend more time on easily decided issues.

Question 2

4

Question 3

Cluster small shops and service businesses together, separate from restaurants so that they are easier to get to, when buildings are being remodeled. Maybe have easier to identify parking for accessibility.

Question 4

3

Question 5

Encourage car subscriptions, like Zipcar, with more visible parking spots. Same for bicycles and scooters. On-demand shuttle = great! Expand shuttle idea for schools, to prevent parents' driving & idling. Be careful about building in flood zones, or else houses on stilts. Finish Caltrain crossings; it's dragged on for seemingly 30 years. Special parking places for vanpools in business areas. Same-day package delivery service, partly subsidized, for shoppers who drive because they need a car to carry the purchases home.

Question 6

2

Question 7

Housing element work to identify places for more housing picked the obvious places; that's good, but it took a long time. Consider more mixed-use buildings on main streets, e.g. Middlefield in south Palo Alto, El Camino, Arastradero, Charleston. Some of these streets are already on bus lines. Airbnb restrictions are good. I'm a landlord for a single-family house, and I don't see a sign-up for a registry.

in Duveneck/ St Francis

December 19, 2022, 1:42 PM

Question 1

The priority should be adjusted to address the top issue, Community Health and Safety, which is significantly challenged by the AIRPLANE NOISE. Palo Alto is the city that suffers the most from airplane noise - airplanes landing in SFO concentrate in the same route that is just above Palo Alto. It's an issue that directly threatens residents and hard to be ignored. I urge the city council to focus on this real problem in the new year.

Question 2

No response

Question 3

No response

Question 4

No response

Question 5

No response

Question 6

No response

Question 7

No response

Question 8

1

Question 9

Airplane noise, in particular the 60-day Statute of Limitations on FAA actions, needs to be on the top of Council's agenda. Airplane noise has been around all day till late night and start from early morning, especially during summer time. With the pandemic relieved and travel recovering, density of the airplanes would continue to increase. If we continue to do nothing, Palo Alto would be a place that is no longer suitable for living.

Mental and physical health of local residents is significantly challenged - lack of a peaceful living environment is a very dangerous factor to people's wellbeing.

Ask for resident input on alternatives to what has been presented by City consultants at the recent Airplane Study Session. Sky Posse's suggestions are here:

2023 City Council Priorities

Share Input on the 2023 City Council Annual Priorities

<https://drive.google.com/file/d/1Jeja3ChmrnDCohqNaHz13mH-XzGpLSFI/view>

PACC needs to engage residents early in the year to more robustly explore options to address the issues. There are more alternatives than what the City's consultants presented at the study session.

Community priorities:

1. Address unfair concentration of routes and "Fly at Higher Altitudes!"
2. Eliminate night time noise
3. Need new Metroplex re-design team and resources to work for communities.

Question 10

Airplane noise should be the first priority and much much more important than all other priorities. If not addressed, the community would perish very fast!

Question 4

2

Question 5

Address airplane pollution over Palo Alto (and over the Bay Area in general) brought about from NextGen air traffic changes since 2015. How can we claim to be addressing climate change when SFO is ADDING new airlines and new flight routes year by year??? One airplane's exhaust releases how many emissions as compared to how many cars? (a lot more)

Question 6

3

Question 7

No response

Question 8

1

Question 9

We need to address airplane noise and airplane pollution i.e. particulate matter (in addition to CO2 emissions for the climate change topic above) from Nextgen which has planes since 2015 fly lower (to save fuel) and exposing the city to air pollution that residents like you and me are breathing in.

I am not against airplanes and don't want to sound like a radical but we need them to fly more over bodies of water, fly higher and fly more dispersed and further away from communities. FAA needs to innovate and come up with Nextgen 2.0 as the current version is a health hazard in the making.

Question 9

Dear Council,

Thank you for holding a study session on Airplane Noise. We would like to reiterate Council's priorities for 2022 - Economic Recovery, Climate Change, Housing, and Community Health and Safety. Public speakers and requests from citizens during Council's Priority setting off site was largely to address noise and air quality health concerns. Noise, and particularly night and early morning jet noise, have serious quality of life and productivity repercussions. Thus, the impact on the well being of current and future residents is significant to Palo Alto's resilience - especially for families with our older and youngest residents, and to many who increasingly want to work from home. When the FAA rolled out the Nextgen program in 2014 the response from Palo Alto residents and neighboring communities was swift and unequivocal - noise from poorly designed Nextgen procedures is "brutal" and "unbearable."

1

"

The FAA's quest

2

to reduce separation between incoming planes meant air traffic was shifted lower and concentrated over communities. While the FAA and airports have focused on obscuring noise problems, and spend more time highlighting Nextgen "benefits," in actuality the partnership between FAA and the airline industry is expensive and dysfunctional with benefits that cannot be traced. During a May 2021 Update

3

to Congress on Nextgen, the Inspector General plainly stated that the FAA's original benefits analysis was based on "optimistic assumptions." In the same hearing, it was made clear that Congress has yet to identify a baseline to understand Nextgen benefits or any metrics because the program was launched with none. Environmental costs have not been quantified, and we already know that the FAA's assumptions about noise are wholly flawed. In 2016, the FAA began to tell Congress that noise is a "shared responsibility" with local governments.

4

In truth, the FAA has sole responsibility for noise assessments as required by NEPA in order to determine appropriate mitigation measures. The agency has also failed to

2023 City Council Priorities

Share Input on the 2023 City Council Annual Priorities

improve community outreach in spite of testifying to Congress about their efforts, which takes decades to implement and inadequately serve the public or not at all. Lately, the FAA brings industry folks to talk at Roundtables about how airlines and community interests are "aligned," ignoring public complaints about noise, health, and environmental issues. In almost nine years of observation, the FAA's community outreach ultimately misleads the

Sky Posse Palo Alto

public, policy makers, and regularly reinterprets laws as is happening with the 2018 Ombudsman law.

5 This law was initiated by quiet skies grassroots groups for the FAA to communicate with community groups, but the money to fund this law is not being used for its intent. Please consider in your study session, Status of National and Regional Airplane Noise Initiatives, the following three Sky Posse requests: 1) address the jurisdictional and legal issues that prevent progress; 2) explore a city jet noise complaints app, 3) address the unanimous Select Committee recommendations that can help the MidPeninsula.

1. Jurisdictional and legal issues of FAA's Community Outreach Policies and

Practices

ASK TO PACC:

Please task the City Attorney to explore and propose a petition for rule change

6 with

the FAA about FAA's Community Outreach practices to address the interests of actual communities by recognizing the current dysfunction of the FAA partnership with airports in managing noise concerns. The City needs to engage advisors who have a strong environmental practice, in government ethics and

compliance, and not advisors that derive most of their profits from airports. The most problematic issue about FAA's Community Outreach is the idea of using airports and airport roundtables as the regulator's public outreach representatives. While airports are regulated by federal laws, they are owned and operated by cities and counties whose interests are in conflict with the interests of communities impacted by Nextgen. And the stakeholders that profit from airports carry no accountability for issues outside their jurisdiction. As profit-making businesses, airports cannot speak for communities and should not be "one" with the FAA or treat the public as the FAA Western Administrator called the public - "external stakeholders." The FAA is wrong to try to outsource their noise responsibilities while fighting the public in court, to ignore noise. The SCSC Roundtable and its eventual demise is a case study where a "seat" at the table for Palo Alto also did not help. Funded with our local tax dollars, the SCSC was launched with an agreement between the FAA and Members of Congress who decided what the regional table could or could not talk about. In San Diego, an airport community table initiative seems proud to say that they begin work with communities with an understanding that airport capacity issues are off the table. This is not at all consistent with what the FAA says it wants to do - share responsibility, and it's an illustration that the FAA is regressing from the first time their leadership met with us in Palo Alto City Hall, or is deeply misguided in carrying out its job as a regulator. In 2016, when airports were not leading community discussions, and with the FAA at the table, citizens did put capacity up for discussion. Please see the unanimous Select

5 <https://quietskiesconference.org/2018-reauthorization>

Sky Posse Palo Alto

Committee Recommendation 3.4, on balancing airport capacity and impacts on health. This was a process that involved 12 members and 12 alternate high level elected officials from Santa Clara, San Mateo, and Santa Cruz Counties in nearly 20 meetings over six months.

2023 City Council Priorities

Share Input on the 2023 City Council Annual Priorities

The growth projections from 2016 need review in light of the IG's comments. Recent airline cancellations are not because of new traffic growth:

Capacity Limitations

The Select Committee understands that the growth in air traffic for the Bay Area is projected to increase by approximately 2 percent per annum. While overall capacity limitations have not been reached at San Francisco International Airport, the availability of additional daytime flight capacity is limited, and it is anticipated that future traffic growth can only be accommodated during nighttime hours. The impact of additional flights during overnight hours is significantly greater to those on the ground, and requires stricter nighttime regulations to avoid sleep interference, as discussed further in Item 2.4 in this Report (Overnight Flights). Longer term, increased traffic levels may necessitate implementation of capacity limitations, such as longer in-trail spacing between aircraft or assigned gate slots. Recommendation: The Select Committee believes these capacity issues should be considered by any successor committee, as recommended in Item 3.1, Recommendations 1 and 2, in this Report (Need for an Ongoing Venue to Address Aircraft Noise Mitigation).
(Vote: 12 Aye, 0 Nay, 0 Absent or Abstain)

The Select Committee also had something to say about "who makes recommendations to whom" and aptly described the FAA's process as "fundamentally backwards."

Who Makes Recommendations to Whom

In the face of widespread concern about aircraft noise over portions of three counties, the Select Committee was empaneled to provide recommendations to Members of Congress on appropriate measures to eliminate or mitigate noise where practicable. The Committee members understood and accepted that assignment, and this Report represents the Committee's best effort to offer such recommendations. That being said, the mitigation of aircraft noise is a highly technical matter. The Committee was wholly comprised of (elected) lay people. Charging a group of elected lay people with the responsibility for making recommendations in

this area seems less than ideal, particularly when the FAA has the requisite expertise and responsibility to manage aircraft traffic in the public interest. Simply put, notwithstanding the FAA's good faith effort to provide technical expertise to the Committee, the Committee's view is that the process is fundamentally

Sky Posse Palo Alto

backwards – the FAA should be going to Members of Congress and their affected constituencies with proposals for review and comment, not the other way around.

Recommendation: Should a similar process be employed here or elsewhere in the country in the future, the Select Committee recommends that, to the greatest degree possible, the FAA be charged with the responsibility for identifying and proposing solutions to mitigate noise concerns, and that community groups and elected officials be consulted for review and comment, and to offer additional suggestions.
(Vote: 12 Aye, 0 Nay, 0 Absent or Abstain)

Any rule change to address the FAA's Community Outreach practices must review how NEPA is being abused; environmental effects of Nextgen and all FAA actions are subject to NEPA disclosure and potential mitigation agreements before implementation, which the FAA evades. Please see our Special Report, The Role of Local Officials in FAA's NEPA Practices.

2. Explore a new City jet noise complaints app**ASK TO PACC:**

Building on Santa Cruz citizen Adam Worrall's <http://stop.jetnoise.net> app that shares anonymized data with airports, academics, citizen researchers, please explore establishing a new City jet noise app. City complaint numbers exist for abandoned vehicles, shoreline noise, fireworks, etc. Reporting aircraft noise requires something like a smart phone app that can identify specific flights and elevations in order to have meaningful data to be collected, archived, and shared in a way that is considerate of the various parties that can use the information. Citizen noise reporting fulfills a communication role that goes beyond airport uses and

2023 City Council Priorities

Share Input on the 2023 City Council Annual Priorities

they need to be handled better than the Airport/FAA status quo. SFO has been working to replace Adam's app, but with unreasonable constraints. Mayor Burt will recall that prior to Nextgen, impacted citizens did not have contact with SFO's noise office. Council's reaction to resident concerns when we approached Council in April 2014 was - how could there be a problem if there aren't any complaints at SFO? Our early observations, in 2014, about noise complaints to the airport are described here. Citizen reporting data is best managed independently from federal and airport contractors who have conflicts of interests with FAA and airport business - and as has been proven by Adam's innovation done at his own personal expense. Palo Alto is affected by three international airports and other GA airports, including its own - all with different and cumbersome systems. Our area counts on brilliant researchers and engineers who can advise on a City app. Please work with community experts to modernize the various data and information systems that inform you and for future leaders.

Sky Posse Palo Alto

3. Implement the Select Committee's Unanimous Recommendations
ASK TO PACC:

Please take the responsible parties of Nextgen national infrastructure to task for implementing the unanimous recommendations of the Select Committee relying on lawful cumulative impacts analysis or fair data capture (not just looking at the footprint of one plane) and relevant metrics. There are several, and these should be considered in GBAS assessments..

Southern Arrivals – rec. 2.5.5 to assess a procedure for Southern Arrivals that does not “simply result in noise shifting”
 Flights from the North – rec. 2.2. to utilize the so-called East leg (over the Bay) as much as possible"

Recommendation 2.5.5 follows Sky Posse advocacy for a Full Length of the Bay route to have aircraft at high altitudes when going over populations, and with noisy descents over water. The FAA has for too long been neglecting the SC process and its own two offers to the Select Committee for night time noise reduction for the MidPeninsula

- voluntary programs and/or what FAA leadership described as infrastructure changes such as a new route. Please note that new route or flight path development is only as good as their eventual appropriate and balanced usage. The FAA recently presented in LA about “Option B” processes
7
to address usage which is critical and does not need to wait for the work with

GBAS.

The Select Committee was formed in response to citizen complaints with the support of elected representatives, to address Nextgen noise. Private citizens devoted thousands of hours to the effort, working with the FAA and members of Congress at their direction, on their terms. In the end, the FAA ignored the committee's recommendations, effectively thumbing their noses at the entire effort. We expect better, and need PACC to be more proactive in advocating to reduce air traffic noise impacting Palo Alto neighborhoods.
Thank you,

Question 10

No response

Name not shown

in Charleston Terrace

December 20, 2022, 3:09 PM

Question 1

Poorly. Housing is key to success on all of the Council's professed priorities. The Housing Element draft released on November 7 conspicuously missed the opportunity to use housing production to advance all of these goals.

Question 2

1

Question 3

I attended the Cal Ave community meeting in December. It felt like the presenter was trying to condition us to accept eventually closing the street to pedestrians to combat commercial vacancies. So it's hard to imagine the city feels it's doing great on this front. Obviously online retail,

2023 City Council Priorities

Share Input on the 2023 City Council Annual Priorities

likely exacerbated by the pandemic, has been awful for many small businesses. In 2022 we had the opportunity to choose to colocate housing growth in business districts that desperately need customers to encourage walkable shopping.

Instead, the city intends to put most of its planned upzoning on its border with Mountain View. These new Palo Altans will shop at Mountain View businesses in Rengstorff Center and San Antonio Shopping Center. Midtown, Cal Ave, and University will see few of their dollars.

Question 4

2

Question 5

The city is choosing to place the vast majority of its new density from upzoning in the South Palo Alto transit desert, maximizing the car dependency of future development, and missing an opportunity to bolster the financial viability of regional mass transit. Outside of South Palo Alto, the city is trying to use spot zoning to gerrymander its way to barely meet RHNA. This will continue to displace housing development into supercommuter towns.

Three people doing construction work in my complex wake up at 4 AM in Los Banos, commute to Palo Alto, and are home at 10 PM. They make this trip every day. That's 600 vehicle miles of daily travel from those three people because communities like ours do not build adequate housing. Palo Alto surely measures its emissions in ways that avoids admitting responsibility for those emissions, but climate change doesn't care which emissions we choose to acknowledge.

Palo Alto has a mild climate. We are a major job center, as measured by our jobs:housing ratio. We have two Caltrain stations. If we cared about climate change we would be luring people throughout the region into low-VMT housing that requires relatively modest energy for heating and cooling.

Question 6

1

Question 7

Build housing throughout the city, especially in places where relatively lower car-dependency will enable people who make somewhat less money to be able to live here.

We should also find ways to encourage more development in R-1 zones. A good start would be exempting SB-9 and ADU projects from the tree ordinance and slashing our exceptionally high fees, to accelerate bringing missing middle housing into our most affluent areas. Obviously this would represent a 180-degree reversal from policies enacted as recently

as 2022.

Question 8

3

Question 9

The pandemic showed how having unrelated people forced into crowded housing by economics can accelerate the spread of disease. Creating more housing units is in the interest of both personal dignity and basic public health.

The city's police department is also a safety risk, as Joel Alejo and Gustavo Alvarez would surely tell you. Academics studying police misbehavior have coined the term "bluelining" to describe the tendency of Police to commit abuse in areas coded for ethnicity [1]. In Palo Alto we might extend this idea to relative poverty, and it might apply to our trailer park, McDonald's, or a shack behind someone's house. Yet Palo Alto's Council has, in recent years, been narrowly focused on creating 100% affordable housing developments --and putting them as far out of sight of affluent R-1 areas as possible. We might as well draw a bright blue line around them and get ready to write more settlement checks.

It would be much safer to create more inclusively zoned communities. I know some of my neighbors are in subsidized housing. But if I didn't know which townhouse was owned by a tech executive versus a teacher, it wouldn't be obvious. They all look the same --both to me, and to Palo Alto Police. That's where our focus should be on subsidized housing.

[1]

https://papers.ssrn.com/sol3/papers.cfm?abstract_id=3746717#

Question 10

My wife is from Kyiv. She came here as a refugee decades ago. I am gladdened that many of our neighbors have been helping a new wave of Ukrainian refugees come to the United States. Please consider what you can do to make this a less economically hostile place for people starting a new life. Our new neighbors will need both jobs and housing. Constraining the former will not help them with the latter. So please reconsider the appropriateness of using an office cap as a solution to the housing crisis.

If not for refugees, then perhaps for our children.

Question 8

1

Question 9

Do something about jet planes overflying Palo Alto! Sue the FAA. Sue the San Mateo "airport noise NIMBYS". My house is ground zero for the noise, outdoor gatherings are intruded upon and friends comment about the noise. My quality of life in PA sucks! I like to be outside and to have windows open weather permitting and noise makes that painful. Come visit 876 Boyce Ave and listen for yourself. Yes, this is a health issue. If your consultants don't think so (especially after hanging out at 876 Boyce Ave (Sunday evening is worst)), get some new consultants.

Question 10

No response

Name not available

December 21, 2022, 5:44 PM

Question 1

Mixed. Pleased on decision to move forward on Fiber.

Question 2

4

Question 3

Too much money spent on PA transit bus idea. Cheaper to give vouchers for UBER/LYFT instead of having empty buses driving around - need to seriously look at the number of people who use bus transport. Palo Alto is not going to get the downtown workers back in pre-COVID volume. Need to re-envision and support restaurants more to be successful and recognize it will not go back to the busy days of office workers - University Avenue. Help us have a thriving downtown with the change in business (not like it was pre-COVID). The parklet decisions don't seem to support downtown, changing rules means increased costs to businesses to redesign/build existing parklets.

Question 4

2

Question 5

Need more objectivity in goals and performance. Feel good goals and slides but not really substantive. I recommend you have someone critique what PA is doing so there is more objectivity. Palo Alto is not being progressive enough to make a difference. Too hard to electrify and do solar in Palo Alto - this must be fixed. Instead there is a lot of marketing about Palo Alto's programs to support electrification and solar -- it is marketing without substance. Contractors don't want to work with Palo Alto and citizens come out of the process not happy (to difficult to do the right thing, this is bad). More substance and less promotion of subpar programs. It isn't true if you asked citizens who have gone through the process or used the programs. It is a bit embarrassing. Great job on zoom meetings - more accessible and no commute time.

Question 6

3

Question 7

Would be good if there were quantitative goals. There seems to be lots of plans and meetings but not so clear on what has been actually built/completed.

Question 8

2

Question 9

It seems to be politically incorrect to not support the gym. Why should the City be spending money on this project when it benefits a few. Shouldn't citizens pay to use a gym. It wasn't a priority until a private donor was giving funds and that is no longer the case. What about the dinosaurs? Palo Alto keeps spending money on low priority items but it is not palatable to say "no". We must get out of this cycle.

2023 City Council Priorities

Share Input on the 2023 City Council Annual Priorities

Question 10

Must continue "Community Health and Safety" in 2023. Airplane noise continues to be an issue and is a long term effort that spans multiple years. We must not give up! The Council should reflect on what worked and what doesn't work from a process and decision making perspective. We need a learning culture to be more effective and efficient.

Question 10

I have seen so many almost accidents with all of the two way stop signs we have in downtown Palo Alto. Most of these should be four-way stops.

Also, what happened to Car free streets on University Avenue? We need more space that is off-limits to cars. I know you guys don't control the Caltrain, but it really needs to come more frequently and go faster.

Adam Schwartz

in University South

December 22, 2022, 10:47 AM

Question 1

I am disappointed that Palo Alto is not building MUCH MORE housing. I'd like to see fourplexes going up everywhere. And 4+ story apartment buildings going up within blocks of University Ave., California Ave., the San Antonio Caltrain station, and Camino Real.

Question 2

1

Question 3

We should be transitioning to a society where people can live where they want. Many people want to live in California's bay area, because it is home to jobs, a tolerant culture, and great weather. We should welcome them -- by building more housing. Also, long-time residents are getting squeezed out. My adult kids want the opportunity to live near me, but might not be able to.

Question 4

1

Question 5

The best thing Palo Alto can do for climate change is build more housing. A lot of it. Otherwise, we will continue the current pattern: people driving excessive distances from lower-priced homes at the distant periphery of the bay, to the many jobs here in the bay.

Question 6

1

Question 7

We should be building much more housing. The vast majority of people cannot afford to live here, because of the artificial scarcity of homes created by excessively strict zoning rules. If we build more homes, at all price points, we can bring down the price of homes.

2023 City Council Priorities

Share Input on the 2023 City Council Annual Priorities

Question 1

Poorly. The scarcity of housing is at the root of all the priority issues, and the regulations that restrict the production of houses have not changed.

Question 2

1

Question 3

Allow more people to move to Palo Alto by permitting the construction of more houses. Palo Alto is a high opportunity location, but too few people can take advantage of the opportunity because there are no homes for them.

Question 4

1

Question 5

Permit infill construction near train stations and other transit location, not just near the highway exits. Abolish parking mandates. Driving is a major driver of climate emission, and allowing more people to live near transit is part of the solution.

Question 6

1

Question 7

Upzone, including the wealthiest areas. Restrictions on housing density is a major driver of economic inequality.

Question 8

1

Question 9

Prioritize pedestrian and cyclist over car traffic. Remove crosswalk "beg buttons". Use leading pedestrian indicators. Close to car traffic the downtown section of University avenue. Car collisions kill people, and car tires release particulate matter that causes serious health problems.

Question 10

Question 1

I followed the link to your webpage for "council priorities" but found it difficult to get a succinct, clear summary of what was accomplished in the past year.

Question 2

2

Question 3

Be more clear about what was accomplished in the past year in this area.

Question 4

2

Question 5

Work with the state as climate change is an important issue and should be addressed at a broader level than the city level. I don't think it's effective for individual cities to be investing in standalone costly programs. For example, for reducing emissions from transportation, the state should impose an additional gasoline tax rather than the city funding very costly bus programs, etc.

Question 6

3

Question 7

- 1) Be more clear about what was accomplished in the past year in this area.
- 2) It seems that building inspections are having very slow turnaround time this year. Hiring more inspectors would decrease the cost of building and help with the housing problem.

Question 8

4

Question 9

2023 City Council Priorities

Share Input on the 2023 City Council Annual Priorities

Thank you for being so prompt to clean up graffiti!
Regarding leaf blowers: the renewed ban on gas blowers is a decent gesture but I think that an ordinance limiting decibels (loudness) may be helpful also... although difficult to enforce.

Question 10

Please focus on core quality of life and cost-of-living issues and less on pet social issues which are better handled by independent organizations.

-

Question 6

1

Question 7

Please restrict overnight parking of oversized vehicles along El Camino Real.

Question 8

1

Question 9

I often see homeless people along El Camino Real and neighboring streets. Many of them obviously have mental health and substance abuse issues. I saw many times how homeless person stole goods from Real

2023 City Council Priorities

Share Input on the 2023 City Council Annual Priorities

Produce Market. I often see mentally ill people on the intersection of Stanford Ave and El Camino Real. We bike with my daughter to Escondido school and have to watch how mentally ill person randomly yell. This is unacceptable. I afraid for the safety of my kids

Question 10

please make homelessness and safety the top priority and act fast. We can't afford to wait many years to make it fixed. Few suggestions:

1. Restrict overnight RV parking on El Camino Real and neighboring streets
2. Restrict any camping in public areas. I saw an encampment popped up recently on Homer ave and Alma st intersection, next to the underpass, in the bushes
3. Add visible police presence and foot patrol in the downtown area. I often see mentally all people in Lytton plaza area

Suggestions nonrelated to safety:

1. Please repave more streets. Currently, street conditions in Palo Alto are pretty bad. Examples: Cambridge ave from El Camino tp Park ave, Leland ave from El Camino to Park ave, Park Ave from El camino to Leland, Stanford ave from Park ave to Escondido road
2. Obviously whole El Camino real should be fixed. I know it's a state owned road and it should be fixed in 2023. So looking forward to it

Hamilton Hitchings

in Duveneck/ St Francis

January 2, 2023, 10:40 AM

Question 1

Some good progress made this year but much more work needed.

2023 City Council Priorities

Share Input on the 2023 City Council Annual Priorities

Question 2

4

Question 3

I give it a 4 because we needed to pass Measure K & L to make up for lack of revenue from recovery. Did we really need a Palo Alto History Museum? Not necessarily anyone's fault and partly due to telecommuting but we did not get back to our pre-Covid economic activity level.

Question 4

2

Question 5

We need flood protection now! It's been 25 years since the 1998 and the city continues to plod along on replacing the Newell Bridge. They are able to build a \$100 million police station within a few years. Let's see that same level of progress for Newell Bridge replacement and to actually begin construction in spring of 2024 instead of continuing to delay.

The city also gets low marks for their sea level rise plan because they insist on sticking with only raising the levees 3 feet even though the estimated sea level rise keeps increasing for 2100 and thus the lifespan of the cities proposed project keeps shrinking. NOAA currently says that unless emissions are brought under control world-wide, sea level rise could be 3.5 to 7. The city should be proposing a 5 to 7 foot increase in the levees.

The Hot Water Heater Program gets an A+ or 5 out of 5. However, residential zoning regulations, the permitting process and high fees continue to block and discourage many residents from electrifying. It's critical the city pass less restrictive zoning for installing outdoor: heat pumps for HVAC and hot water heaters, electric home batteries (ESS) and electric car chargers. Note, the Planning Department is working on this. Also, faster permitting on solar.

Question 6

4

Question 7

The city was able to identify sites for their RHNA quota of 6600 housing sites in their new Housing Element for the next 8 years, which many folks thought would not be possible because it is 3 times the last cycles housing. This also includes low income housing above parking lots. The city is building a new transitional housing site on North San Antonio for homeless, which has the capacity to cycle all the existing homeless in Palo Alto through it within a few years. Homeless from the surrounding areas will also use it as capacity becomes available. Wilton Court low income housing opened, teacher housing near California is being

constructed and other projects are in the pipeline. The residents also passed Measure K which allocates another 3 million per year for affordable housing, which when combined with matching state and federal funds, could provide substantial funding. However, the state is essentially providing a 1 billion dollar unfunded mandate with the current unrealistic RHNA numbers for 3800 affordable housing units and no density cannot deliver these. Deducting 1 star for state pushing fabricated RHNA numbers that even the state's own auditor found to be based on a flawed methodology.

Question 8

5

Question 9

Crime is up, especially violent crime. However, with Measure K passing, we are able to restore police staffing back to pre-Covid levels and now have leading mental health response, relative to almost every other city in the United States (shout out to other leaders like Portland). City did a good job with Covid.

Question 10

Prioritize Climate Adaption for 2023 including replacing the Newell Bridge (so then Chaucer can be replaced), raise the target height of levees for sea level rise to six feet and relax residential zoning requirements for electrification.

Name not shown

in Leland Manor/ Garland

Question 1

No response

Question 2

No response

Question 3

I don't have the data to rate the City's efforts.

I wished that University Avenue had remained pedestrian as it made the downtown area much more amenable for people instead of cars. Cars are not necessary on University Avenue: there is plenty of free parking in garages right nearby, and plenty of other streets that drivers can use. People with disabilities can also be dropped at the corner of the intersecting streets.

Parking in front of a restaurant or a shop to avoid walking one or two blocks is a very old model that many cities around the world have decided

2023 City Council Priorities

Share Input on the 2023 City Council Annual Priorities

to abandon, and they are doing very well.

Question 4

No response

Question 5

I don't have the data to rate the City's efforts.
Continue to promote renewable energy, less consumption of petroleum products (for instance, why are there plastic bags in farmers' markets instead of paper bags?), use of public transportation or walking and biking (electric cars are better but the recycling of batteries is still a major issue), re-use of materials, and water conservation.

Question 6

No response

Question 7

I don't have the data to rate the City's efforts.
Without relieving some constraints such as height limitations, there is limited potential for making a dent on that problem. Also consider housing developments that provide small apartments (< 500 square feet, with 1 or 2 bedrooms) --billions of people around the world, including in world class cities, live in much smaller places than the typical apartments built in our area.

Question 8

No response

Question 9

I don't have the data to rate the City's efforts.
I appreciate the City's continuing efforts on the problem of airplane noise.

Question 10

See comments above.
Airplane noise must remain a priority.

I would like to see swift action to mitigate flood risk on San Francisquito Creek, in particular the choke point of the Pope/Chaucer bridge.

Name not available

January 3, 2023, 11:01 PM

Question 1

Not sure, but in general I do not agree with the priorities that seem to be pushed by Council. Emphasis should be on public safety, infrastructure, recreational facilities, and priority should be given preserving the quality of life for the RESIDENTS of Palo Alto who pay taxes and elect our representatives.

Question 2

2

Question 3

Reopen closed streets, i.e., California Avenue and Ramona Street. We no longer need to support a few restaurants at the expense of other

2023 City Council Priorities

Share Input on the 2023 City Council Annual Priorities

businesses and the vitality of our retail districts.

Question 4

2

Question 5

Fix the creek, replace the Pope Street bridge, ASAP. Get serious about this problem.

Stop mandating how houses can be built and "deconstructed." You are making it more expensive to live in this city, which is not helping the housing imbalance.

Question 6

2

Question 7

Resist efforts by non-residents (ABAG and others) to dictate the character of our city. Fight to maintain R-1 zoning and single family residences. Oppose efforts by state officials to strip us of our local control over zoning and turn the entire peninsula into one homogenous urban environment.

Question 8

3

Question 9

Safety: Make sure our police and fire departments have the staffing levels and resources they require to do their jobs. Reinstate the Police Department's traffic team and make traffic enforcement a higher priority. Make it clear that the leadership of our city supports and appreciates our first responders. Stop stalling and fix the SF creek.

Question 10

Focus on the following main issues: (1) public safety, i.e., police and fire staffing and resources, (2) infrastructure, i.e., roads, utilities, (3) parks and recreation. Focus on preserving and promoting quality of life issues for residents who live in this city, not for those who want to live here but don't.

Get serious about addressing the SF creek flooding problem; press the Joint Powers board to complete the Reach 2 phase and replace the Pope St. bridge ASAP.

Question 1

Poorly

Question 2

1

Question 3

Preserve the closure of California Ave. and Ramona St. and restore the closure of University Ave.

Question 4

1

Question 5

Replace the Newell Road bridge. When the project was approved in 2020 construction was scheduled to begin in 2021 and be completed in 2023. It is now 2023 and the project has not started. There is no excuse for this. COVID is not an excuse, it was an opportunity to complete the project with less disruption because there were fewer people on the road.

Question 6

1

Question 7

No response

Question 8

1

Question 9

Replace the Newell Road bridge. When the project was approved in 2020, construction was scheduled to begin in 2021 and be completed in 2023. It is now 2023 and the project has not started. There is no excuse for this. COVID is not an excuse, it was an opportunity to complete the project with less disruption because there were fewer people on the road.

Question 10

There is no excuse for the failure make progress on the Newell Road bridge project. None. COVID is not an excuse. A lawsuit is not an excuse. Allowing people who are themselves not at risk of flooding to obstruct the project is not an excuse. The City of Palo Alto has an obligation to get it done. We will not wait any longer.

January 4, 2023, 1:12 AM

Question 1

No response

Question 2

No response

Question 3

No response

Question 4

2

Question 5

It's pretty clear that a large portion of the City is vulnerable to flooding risk that is getting exacerbated by Climate Change. The City has dragged its feet on key projects, such as reconstructing the Newell Road bridge, that will go a long way in reducing risk for hundreds of homes. The City must make this a strategic imperative.

At a tactical level, very little has been done ahead of forecasted storms. Measures like leaf sweeping, proactively clearing debris from the San Francisquito Creek, etc. could have reduced the damage to the streets and some homes.

Finally, communication has been abysmal. Residents could have been warned not to park on certain high-risk roads, secure sandbags ahead of time, etc.

It's all very well to organize road shows for the latest electric cars, but managing the impact of climate change requires nuts and bolts work, which I have only seen in a reactive sense after the first storm hit on New Year's Eve 2022.

Question 6

2

Question 7

I'm currently building an ADU, with the intention of renting it out and thereby increasing the housing supply in the City. The level of permitting friction, both in terms of time, regulation dressed up as safety/environmental protection, and permit costs, is substantial. Having consulted with individuals who understand the state mandates on

housing, it is very clear that the City is misaligned with the State goals of increasing housing supply.

Question 10

focus on the people, not the businesses

Jennifer Landesmann

in Crescent Park

January 4, 2023, 9:35 AM

Question 1

2022 and past years should have included flood control given its relevance to health and safety and climate. Some of the 2022 priorities had the virtual kitchen sink thrown at them in terms of work plans and policy books while others like airplane noise had nothing except a link to a webpage. I'd like to encourage the City to start producing an Annual Report ahead of the City's priority setting work, which organizes the City's portfolios and multi-year projects with elevator pitch paragraphs (for each portfolio or major project) with three parts 1) brief mention of key milestones 2) obstacles encountered and 3) next steps. A digital medium preferred. How else would Council and the community know what may need urgent attention? Because the priority setting session informs how the public agenda is used, I also suggest for Council to dedicate the start of each year to review the status of key multi-year projects related to health and safety. That still leaves Council the majority of the year for new endeavors but the oversight of City projects and initiatives that relate to population health and safety should have standing "priority" status on Council's and the public agenda.

Question 2

No response

Question 3

The background info for this item is heavily intertwined with "community recovery" One link is "Community and Economic Recovery." What isn't readily available is what the title of the priority reads - Economic recovery. So, it's impossible to evaluate how the City is doing - or what economic

metrics are used as a baseline. What the city can do differently is to first define what metrics it uses to track economic recovery and share that analysis. Also, share the evolution of these metrics periodically.

Question 4

No response

Question 5

Add flood control and all direct climate related risks to Palo Alto's population and reorganize this work to put more emphasis on protection of Palo Alto and Palo Alto residents. I found nothing about dealing with emergency events related to natural or man made hazards. What the City should do differently is to score "climate" related initiatives for how they relate to protecting the City and residents. For example, the City may need to set aside more money to handle natural hazards and emergency response (including data analysis efforts for risk management) and that work would have a high score versus work on attaining broad UN like goals. The elephant in the room is Palo Alto Airport's footprint. The City needs to have more data and reporting on the airport's activities. Regarding data, the pictures of stand alone numbers on the climate page are not helpful. A number is meaningless without other baselines and comparisons. Tables and other state of the art visualizations are needed.

Question 6

No response

Question 7

Confront the assumptions about jobs, work modalities, and workforce in the Bay Area that are being used for the state's unfunded mandates to permit aggressive housing growth, and produce projections for the increase in costs to manage infrastructure, emergency, safety, and other services with added population.

Question 8

1

Question 9

Airplane noise needs more work. Please keep Health and Safety as a priority in 2023 and add flood control. The City should adopt a risk management approach to population health as is done in Europe using exposure maps for physical and environmental pollutants. There are various federal and state agencies which are involved as well; the City needs to coordinate and provide leadership to measure, assess risks, and mitigate impacts. Airplane noise, air pollutants and airplane accidents are a high risk for the City as well as for our neighbors; airplane noise did not receive sufficient attention in 2022. Community health and safety metrics

2023 City Council Priorities

Share Input on the 2023 City Council Annual Priorities

to measure progress need to be developed. How will jet noise be reduced? Are night time flights being addressed with voluntary programs or infrastructure changes as the FAA committed it could help address? What are the altitudes of jets overflying Palo Alto? How is the City representing itself with SFO, OAK, SJC and the FAA given the FAA has determined noise to be a shared responsibility?

No response

Question 9

No response

Question 10

Flood control at the Chaucer and Newell Bridges needs to become a very high priority. We cannot wait another 25 years.

Question 10

I suggest for the 2022 priorities to continue into 2023 - with the suggestions for improvements provided in my other feedback - to add flood control and do more about airplane noise; institutionalize a City Annual Report; leave health and safety as a standing priority every year; produce impact and exposure analysis with state of the art visualization tools, and score City initiatives with how they directly impact or protect Palo Alto's property and population. City initiatives or tasks that do not fit in one year should also be handled in a more transparent manner and not dropped off a list or require repeated citizen advocacy to get executive updates and follow up on the City's ongoing projects.

apartments. Preserving affordable single-family homes is also important. Is it a good thing to be tearing down so many modest homes and replacing them with palaces?

Question 8

1

Question 9

1. Get the Newell and Chaucer bridges removed as soon as possible!! Every year they remain up, there is a risk of catastrophic flooding, and the risk is increasing due to climate change. Replacing them is also important, but not as urgent. Think about the impact a repeat of the 1998 incident would have on the affected residents, property values, etc.

2. Crime seems to be on the rise. Has the necessary funding for police been restored?

Question 10

I don't understand why the city should be spending time and money developing its own fiber-to-the-home service in competition with ATT and to some extent Comcast.

Question 2

2

Question 3

City council should be doing more to address the high number of commercial vacancies. The council focused on large businesses with the business tax, but should be focusing on incentives to fill small commercial vacancies through either tax breaks or vacancy taxes.

Question 4

1

Question 5

The council has done little in this area, preferring to put the onus on Stanford University to take action.

Question 6

1

Question 7

The council lagged far behind on submitted their housing plan to the state. The council planned for additional housing, but specific plans for housing have been repeatedly scaled down. No specific plans have been laid out to support the additional housing outlined in the plan, especially in the eastern portion of the city. The council has preferred to spend time trying to tell the state that their methodology is flawed, despite having over 3.5 jobs per home in the city.

Question 5

Ensure that the Newell and Pope-Chaucer bridge replacement projects are completed on their current schedule. Allocate City funds as necessary to move these projects forward. If funding from other entities is delayed, then reallocate City funds from non-essential projects and proceed unilaterally. For example, the Council recently announced its

2023 City Council Priorities

Share Input on the 2023 City Council Annual Priorities

intention to spend of the order of \$100m for the fiber network, a very large expenditure to address an issue that is not a problem. Eliminating the danger to life, property, and City finances posed by the Pope-Chaucer bridge creek flow constriction should clearly be a higher priority than funding internet access for the vast majority who already have it (the City can choose to provide internet access to those who do not have it for a tiny fraction of the cost of the fiber project). Please note that the City created the flood danger by installing the flow constriction in ~1948, therefore it is liable for the cost of the flood damage that will likely occur as a result, as well as for the unaffordable flood insurance premiums caused by the danger.

Question 2

No response

Question 3

No response

Question 4

1

Question 5

Fix the creeks to stop flooding. Residents experienced massive flooding 2x on Sat Dec 31st when the Sanfranciscuito creek overflowed at Chaucer street. People have spent hundreds of thousands of hours & money cleaning up & prepping for more flooding. This will drive down property values & interest in making purchases in the city which impacts city tax revenue. Climate change is here & there is going to be a massive increase in these flooding events.

It's been 25 years since the 1998 massive flood, yet so much red tape these flood prevention/creek fixing projects should have been all finished years ago but most haven't even started.

Experts say there are not enough storm drains on city Streets so that if there is too high a volume of water it goes into people's homes b/c the drains can't keep up. Our street has only 1 drain on 1 side for a very long block none on the other side, this results in millions of \$ in property damage that could have been avoided if the streets had standard # of drains & doesn't even require people to agree & execute on the creek improvement projects.

Question 6

No response

Question 7

No response

Question 8

1

Question 9

Improve the Storm Drains, fix the creeks so they stop overflowing & flooding the city. Stress you are putting on people worried about & trying to recover from flooding in their homes, their cars, driving through flooded streets when they try to get groceries or medical care, the physical labor required to try to protect homes by filling & lifting have sandbags with the current poor creek system means health & safety in the community is extremely poor.

The street sweepers have been going around not stop to remove the Sat Dec 31 mud from our streets which is great to reduce what can block the

2023 City Council Priorities

Share Input on the 2023 City Council Annual Priorities

drains in the next storm, but as they do so they are pushing debris onto the grates of the drains as have the winds. The City has asked Residents to help clear storm drain grates but as we know, since they are on city property there is little success in that. We have not seen anyone from the city helping to clear the drain grates. In a 30 minute walk recently in one of the massively flooded areas from the 12/31 storm, I saw at least 15 drains that were 80% or more covered with heavy debris. Again, we have 50% fewer drains than we need so clogging what does exist creates a massive problem as there's no backup, water ends up in people's living rooms.

Question 10

More drains, keeping them free of clogging, accelerating projects to eliminate flooding from the creeks spilling over need to be the #1 priority in 2023. This is the single most important thing the council can do that impacts every aspect of life here.

Question 4

No response

Question 5

It's been 25 years since the 1998 flood and yet we still had major flooding on New Year's Eve due to overflow at the same Pope-Chaucer bridge. The Newell Street bridge and Pope-Chaucer bridge are way overdue for flood control work, plus the city needs to evaluate where its storm drains are located and how they performed during flooding, as well to do regular monitoring as to whether the storm drains need maintenance. On Alester Avenue, this was once again a big issue with the recent New Year's Eve flooding. There need to be additional storm drains between San Francisquito Creek and Alester (e.g. on Dana) and we need more and larger storm drains that function well on Alester. The city should also send crews to areas that are prone to flooding to ensure that the drains are working during a flood. My call to the non-emergency number to request help with the storm drains on Alester was met with the response from the dispatcher that city workers were prioritizing helping at sandbag locations and would not be available for at least an hour -- it was too late for sand bags, we needed timely assistance with the storm drains!

2023 City Council Priorities

Share Input on the 2023 City Council Annual Priorities

Question 10

The City also needs to figure out how to work more closely with PAUSD on property issues. On Alester Avenue, we had trouble with the city street sweeper not having a mandate to clear the mud from the Duveneck Elementary parking spaces on the street or the adjacent Duveneck parking lot. Calls to Public Works went unanswered. We had to contact PAUSD (not easy during a holiday) and have PAUSD work out an arrangement with the street sweeping contractor. Without that intervention, the storm drains would have been inoperable due to mud in the next (imminent) storm. The city should be taking the initiative to coordinate with the school district for protecting both city and school zones, not leaving it up to residents to connect the city and school district.

Question 4

3

Question 5

Lower the flood risk through moving faster on infrastructure projects that mitigate flood risk.

Question 6

4

Question 7

Is it possible to gift money within the county to other cities where cost of housing construction and land is cheaper to build. Can the city partner with foundations to do this? Housing is expensive because this area next to Stanford U. is job rich. There are many reasons for this but in part this is due to how Stanford is obliged to lease land rather than sell it. A requirement Stanford needs to meet in perpetuity. Large corporate campuses also have put pressure on housing and appear to be buying up residential housing for their employees. Perhaps the city should investigate solutions with these corporations, Google, Facebook ect. A few projects in Palo Alto, where land is very expensive, are unlikely to make a real difference. "Low cost housing" is still very expensive.

Question 8

Name not shown

in Crescent Park

January 4, 2023, 11:50 PM

Question 1

I have no idea. My brief scan of the first priority's evaluation on your website shows me that your "traffic light" evaluation has, as its highest achievement, "progress." Which means to me that you don't care to actually look for full achievement of any goals. I don't think that's an approach designed to get real results.

Question 2

No response

Question 3

No response

Question 4

3

Question 5

To pick one example, waste diversion, your goal for a long time has been 100% diversion from landfill if I've understood correctly. I think this is nearly impossible today (and in the medium future) for any reasonable set of definitions, and therefore that the goal is simple value posturing. It's problematic because I think it has led to extreme efforts to "recycle" things that haven't, in reality, gotten recycled at their destinations (China/Asia), instead creating other problems there. I've also seen several requests in recent years that you report on specifically what does happen with our diverted waste streams, but never a serious self-assessment of that question from the city.

Question 6

2

Question 7

Perhaps look at what neighboring cities with much better results (MV) are doing? Just do a lot more to streamline permitting and inspections? I recently did some straightforward electrical work at my home, decided to add an EV charger to the job as I was planning on buying one shortly, and my contractor got a lot of grief from the city because he couldn't fill out a

2023 City Council Priorities

Share Input on the 2023 City Council Annual Priorities

2-page (!!!) questionnaire on what car I had (because I didn't have one yet).

Question 8

5

Question 9

No response

Question 10

It's time to make flood control a high-priority objective, with measurable objectives that include not going through another rainy season with the Chaucer Street Bridge threatening us, and monitoring/reporting to make it happen. We supposedly have a plan to replace this bridge. Why can't we make sure that it's not sitting there at the end of the summer, even if the replacement isn't done yet? The City should be pushing hard on the Joint Powers group to move, if you can't make it happen alone, or maybe just push on Menlo Park to collaborate.

Name not available

January 5, 2023, 8:24 AM

Question 1

The HSEB goals fell woefully behind, but climate change projects did pretty well.

Question 2

3

Question 3

No response

Question 4

4

Question 5

While Palo Alto is doing a better job than most places, there's still a lot of denial about both heat and water extremes (including high rain events when they happen).

Question 6

1

Question 7

Catch up on projects not started last year. Accept the state requirements for ADUs (especially adjusting the height based on flood zone rules applied to other housing).

Question 8

3

Question 9

No one in my neighborhood (that flooded in 1998) believes the Chaucer Street bridge will be fixed on schedule (2025). Both the Newell and Chaucer bridges should be a top priority. There is considerable emotional distress each time the creek rises or water backs up to flood the streets, not to mention people who shouldn't be out in storms clearing streets and moving sandbags. It's a safety issue one way or the other until we improve those bridges.

Question 10

Palo Alto needs to prioritize all stages of work on San Francisquito Creek and stop making excuses. Every delay has been foreseeable, and 27 years to fix a bridge is too long already.

Kevin Fisher

in Duveneck/ St Francis

January 5, 2023, 9:46 AM

Question 1

Creek flooding is by far my top priority. We are seeing insufficient progress on replacing the Newell Rd bridge, which is something City of Palo Alto has primary responsibility to resolve.

Question 1

AVERAGE. If there is a priority, there should be benchmarks for evaluation. Where are the internal evaluations located on the City web site.

Question 2

3

Question 3

Restoration of city services should have been prioritized before additional projects and new spending was approved.

Question 4

3

Question 5

No response

Question 6

1

Question 7

The City has always prioritized jobs over housing. In the many years I have lived here developers have consistently NOT BEEN REQUIRED to fulfil their BMR requirement by "paying" off the City with a payment to the BMR fund, which is slow to develop housing and uses depreciated monies from the BMR fund. No BMR in lieu payments should be allowed! It's a cheap cheat for developers.

Question 8

3

Question 9

Palo Alto Police Department needs real diversity, not officers who suffer mental distress from a picture on the ground, including more women and minorities. I hope to never have to call the PA police since there are officers who are scary especially to a small woman.

Question 10

Restore City services to pre-covid levels.

Question 10

The previous questions are about the 2022 priorities. How about the 2020 and 2021 priorities?; aren't they active for 3 years?

Now you ask for "other feedback" on the 2023 priorities. Where do I input my SUGGESTIONS for the 2023 priorities?

Input, not feedback, is what the survey says it's about; why not have two separate surveys? Or at least label the Priorities question clearly?

Question 10

2023 Priorities for Palo Alto City Council:

(Written 1/6/2023.)

(In no particular order, so please read the entire list. Thank you for your kind consideration of these suggested Council priorities.)

Continue focus on reducing climate change. (More detailed suggestions below.)

Roads:

Resurface dangerously bumpy bike lanes such as the one by the high school that is eastbound on Churchill from Alma to Emerson. Be sure they are kept free of obstructions, such as waste bins.

Install and diligently maintain reflective paint, reflectors, and warning signs on all bulb-outs, medians, traffic circles, etc., that narrow biking and driving lanes throughout the city. (Car tire strikes have darkened or removed much of the reflective paint and reflectors, where there was any.) Currently, many of these create a huge hazard in that someone going straight down a street (particularly in the bike lane) can easily hit them without warning. Design future ones and possibly retrofit current ones to have a soft landing spot, such as a bush, for cyclists who hit these curbs and flip over their handle bars. (This is a serious suggestion.)

Review all roadway signs, starting with those along bikeways, that say, "Not a Through Street". Amend them, as appropriate, to say, "for motor vehicles" or "except for bicycles and pedestrians", as often there's a path out the other end. Make all signage throughout the city appropriate for bicyclists (and pedestrians, where appropriate), as they are legitimate road users and must be encouraged to reduce climate change, pollution, and the ills of sedentary living. Clarify, perhaps with CA DMV collaboration, whether bicycles are considered "vehicles" and have signage reflect this standard.

Air:

Enforce the existing gasoline leaf blower ban, expand it to be city-wide (not just for residential properties) and cover all landscaping tools. Make available a more effective downloadable flyer for folks to share with offending property owners and yard care workers. Create an online reporting tool for easy, perhaps anonymous, offense reporting. Possibly have warnings sent out without the need for staff intervention.

Ban all indoor fireplace wood fires, as they destroy the air quality for blocks around the offender's home and are truly ineffective at heating the home.

Require all wood stoves to be low emission and fed with outdoor air; catalytic converters and pellet stoves allow relatively clean wood burning and outside air intakes substantially lower the emissions from burning wood in a well-sealed house and the air infiltration in a leaky house. Consider banning all indoor wood burning and further regulating outdoor fires.

Electrification to displace fossil fuel use, including evening peak-electric-load gas peaker plants.

Encourage the adoption of electric vehicles by people living in multi unit and rental housing by expanding and diligently maintaining publicly available level 1 and 2 EV chargers in the neighborhoods and DC Fast Chargers in retail areas. (Many municipalities very affordably install level

2023 City Council Priorities

Share Input on the 2023 City Council Annual Priorities

2 chargers on street light poles.) Require all remodels and new dwelling units to be EV charger ready. Encourage/require work place charging (standard 120 VAC, 15 amp outlets are all that's needed for most commutes) to make use of the statewide surplus of solar energy during the day. Encourage/require solar photovoltaics near daytime chargers to reduce or eliminate the need for grid or building service upgrades to charge EVs.

Lobby the Federal government to incentivize maintaining, not just installing, DC Fast Chargers for long distance travel.

Install and encourage electric load shedding and power storage, including smart breaker panels and bidirectional electric vehicle chargers, whether behind the meter or municipally owned or contracted. Incentivize the former by providing rebates and introducing instantaneous two-way electricity pricing and a communication structure for customers' equipment to automatically respond to price fluctuations. (OhmConnect currently provides a limited incentives-for-load-shedding service to PGE and other utilities' customers; perhaps OhmConnect could be engaged to do the same for PA in at least the short term.) Educate local contractors and residents on how to install and use the aforementioned load shedding and grid storage equipment.

Aggressively encourage building electrification and natural-gas-free buildings by giving huge incentives to not pipe gas to new or remodeled buildings and large rebates to folks who do transition their appliances from gas to electricity. Progression: Increase the reliability of the electric supply to reduce resistance to giving up gas appliances such as stoves, water heaters, wall furnaces, and gas fireplaces that currently don't require electricity. Make no new gas connections. Ban installation of new gas appliances. Require existing gas appliances to be replaced by a certain date. Cap off older lines to prevent leakage. Cap off all unused lines. Stop supplying gas altogether or transition non-electrifiable needs to biogas, possibly supplied through the remaining gas pipeline network.

Railway:

Follow the lead of other cities on the Peninsula by cost-effectively grade separating the railway crossings with a hybrid approach of raising the tracks and lowering the cross streets to go underneath. Be sure that there are low sound walls on the elevated tracks to protect the nearby homes from wheel noise. (The electrified locomotives will be much quieter than the current diesel ones, so tall sound walls are not needed.)

Question 1

I salute the City Council. These are extremely challenging times due to

2023 City Council Priorities

Share Input on the 2023 City Council Annual Priorities

health and other issues related to COVID, the difficulty in keeping employees, and to the extreme pressure to build more housing, especially affordable housing.

Question 2

3

Question 3

I don't have any suggestions to contribute.

Question 4

3

Question 5

One of the most effective ways we can help battle climate change is to make it easier for people to use public transportation, bicycles and walk. That means optimizing safe routes (and effectively advertising them and offering classes on safe bicycling) and working with VTA, Caltrain, BART and other transportation systems to make paying easier, connections more efficient, and more frequent options. Until we figure out how to incentivize people to drop their SOV (single occupancy vehicle) usage, we can't conquer climate change. We have to make it easier and more efficient to use alternative ways to move to and from work, recreation and whatever. One important change we need to make is to improve the east/west connectivity on California Avenue. While outdoor dining is all well and good, even more important is protecting our planet. Making it hard for workers, students, children and seniors like myself to move from the east side of Cal Ave to the west side and vice versa is counter to our climate goals. The City must rethink making Cal Ave focused on dining and shopping, unless they can figure out how to make biking east/west safe and efficient. It is not at all efficient since you closed the road at El Camino and on Ash Street. Someone who lives in College Terrace or works in the Stanford Research Park is hardly going to be persuaded to change to biking when the City has made that crossing nearly impossible for bikes. In addition, cutting off the access to Cal Ave for cars has traffic bottled up, with awkward backing up and back to turn around on dead ends. This causes more emissions and lost time. Is outdoor dining more important than protecting our air quality and countering climate change? No!!! Countering climate change is more important than enjoying ourselves as we eat and drink outside. Unfortunately Cal Ave is not a good location for dining in the street, regardless of how popular it might be.

Question 6

3

Question 7

This is a fight we won't win any time soon given the impossible to reach State housing mandates. I noticed that something new is just starting to be built on Cambridge Avenue -- parallel to Cal Ave. That is a big lot and could be an excellent housing location with access to Caltrain and schools. I haven't seen anything in the Palo Alto Weekly describing what the project will be. If it will be offices, that's a lost opportunity. It's clear we don't need more offices. We need affordable housing and especially housing located with walking distance to transportation.

Question 8

3

Question 9

We are fortunately in Palo Alto to have excellent healthcare. What we could use more of is cleaner air (less traffic), safer streets (less traffic and traffic laws enforced such as stop signs and speed limits), and a more quiet city. Reducing traffic will reduce much of the noise we endure. Citing cars without mufflers will help (seems to be increasing numbers of "hot" cars flexing their noise muscles). In addition, there is a great deal of research that shows night lights disturb our sleep AND perhaps more important, the health of other species such as birds. Other cities are dealing with excessive lights at night. Palo Alto needs to add this to our list of important climate and health improvement goals.

Question 10

I give my sincere appreciation to the City Council and the City's employees for the challenging work you all accomplish. This modern world is more challenging than ever. I hope you can devote more attention in the future to the various aspects of climate change where we can and must make a difference.

Question 10

Develop the Fry's site with housing, affordable housing (and there is nothing worthwhile keeping that ,historic' structure!) If this structure really has to remain then put creative spaces in some of it

Robert Neff

in Palo Verde

January 12, 2023, 10:43 AM

Question 1

I'm glad to see the heat pump water heater program. I wish the transportation department had more bandwidth for transportation in all its forms (active transportation, transit/trains, and vehicles) and spent less time on parking. B

Question 2

4

Question 3

I think we should embrace having employers continue to use work at home substantially, and promote much more housing near our downtowns to increase the vibrancy of those areas. I don't think we should pivot away from depending on return to work in the office in the Research Park or at Stanford as a necessity to having successful business districts at Cal Ave and Downtown. I love the changes on Cal Ave.

Question 4

3

Question 5

If electrification is the future, we need to plan for infrastructure to support that throughout the city. Also, I would love to see actual progress on undergrounding of utilities (it has been so slow!) so that we have more trees along back lot lines in south of Oregon Expy, and be comfortable with higher housing densities. Make sure our transportation infrastructure has few barriers to walking, shuttles, and active transportation (biking / scooters) and that these trips can serve work commutes and errands is important.

Question 6

2

Question 7

We have some projects, but it seems like no fortitude for embracing the housing we need when a loud group objects. It seems like we are set up to solicit projects, and then shoot them down. Leadership on what we want would be great. I'd like to see the proposed housing at Fabian / Charleston and at the Creekside Inn properties be given a more positive reception.

Question 8

4

Question 9

The new 101 overpass is great! Much safer to get to the baylands in south PA for healthy exercise! We can continue these kinds of connections by formalizing the 101 seasonal undercrossing at Matadero Creek (widely used by able bodied joggers and dog walkers already).

Question 10

I would like to see the city to continue to put energy and money into Climate and Sustainability issues, including a broad approach that includes housing, transportation, utilities, and overall development that is complimentary to the Climate and Sustainability progress. I would like to see our parking lots simplified. Anyone should be able to drive in, park, and pay conveniently for metered parking, from 2 hours to all day, and not have to return to their car until they are done with their trip. Also, I'd like to see plans completed for the rail crossings, and a firm start on bike/ped crossings near Loma Verde and Seale to serve the city while the multi-modal crossings are under development.

2023 City Council Priorities

Share Input on the 2023 City Council Annual Priorities

Question 3

No response

Question 4

5

Question 5

No response

Question 6

1

Question 7

The City should create an ordinance requiring that homes be used as primary dwellings and not be purchased as foreign investments & left uninhabited. Palo Alto needs to house those who serve our community (teachers, police, firefighters, local government employees) and not simply collect taxes on unused properties. Unoccupied homes weaken the sense of neighborhood community (no actual neighbors), pose a safety hazard/crime threat (unmonitored property) and worsen the housing crisis. In our Charleston Gardens neighborhood, a home that once housed a family was sold & rebuilt 5 years ago and has remained unoccupied since. I have heard similar stories from friends in other PA neighborhoods. In addition to unused homes, we have unused business properties some on which could certainly be rezoned for housing.

Housing should take priority over hotel construction. Given the housing crisis, I was surprised when PA City Council approved the construction for 2 hotels on San Antonio Road rather than allow that plot to be rezoned from business to housing (there are two beautiful condominium complexes with a combined 188 units directly across the street and another family condo complex 2 blocks away so it is partially a residential area.) When I read that hotel tax represented (at that time) 12% of the City's budget, I understood the motivation but, again, feel like housing needs to be a priority over simple tax collection.

Question 8

4

Question 9

Really my answer is 5 for Community Health & 3 for Safety. The City did an extraordinary job providing myriad community support services throughout the Pandemic and the weekly "Coronavirus Reports" have always provided a wealth of information. I'm giving a 3 to Safety. I'm a second generation Palo Altan, raising a 3rd, and have been disturbed by the rash of homes burglaries & car thefts in the past several years not to mention the regular issues at Stanford Shopping Center including store

robberies, & parking lot muggings & car-jacking. I realize crime is complex issue tied to the growing population in the area & and the increased wealth gap and appreciate the work of local Law Enforcement...Surely there is a way to mitigate crime...Perhaps an investment in aiding our under-resourced neighbors in East Palo Alto might serve to decrease criminal activity rooted there & enacted here?

Question 10

Thank you for soliciting community feedback. On the whole, my family & I are very satisfied with life in Palo Alto and my feedback is meant just that: notes & suggestions based on my experience within the community. I appreciate the Council's work & care for our city.

Question 10

I volunteer at the Jr Museum & Zoo. There are VERY few full-time employees, resulting in staffing deficiencies & turnover. I have read that a city can be judged by the manner in which it treats its animals. At this point, our city would be getting a low grade. Please give zoo staff full-time employment. Thank you.

Name not available

January 17, 2023, 6:46 PM

Question 1

Not sure how this can be equated. Priorities are often very similar each year although possibly with different wording or different orders.

Question 2

5

Question 3

According to Palo Alto online, recovery seems to be going well. There appears to be plenty of money to spend on Junior Museum and to do more lane disruption to several of our main traffic corridors.

Question 4

1

Question 5

How this can be equated is a mystery.

Question 6

1

Question 7

From the fact that there are a lot less people working in Palo Alto and there are For Lease signs on offices, commercial buildings, and rental housing, it is impossible to say how much this is due to anything the City is doing or not doing.

Question 8

2023 City Council Priorities

Share Input on the 2023 City Council Annual Priorities

1 No response

Question 9

Not sure how this can be equated. There are very few opportunities for young people to have fun, meet friends, and to relax. There are some great restaurants, but not all are family affordable or suitable for teens to meet. We appear to have plenty of expensive coffee shops and ice cream type shops with queues outside the doors, but these are not particularly healthy, safe or offer relaxation and recreational offerings. We have had plenty of crime in Stanford shopping centre as well as local supermarkets, sandwich shops and 7 11. Some of this crime happens during the day which is scaring people from going out.

Question 9

An unrecognized aspect of community health is simply Fun. There is very little fun to be had in Palo Alto, particularly for young people. Over the years, this area has lost bowling alleys, laser tag, mini golf, etc. City government itself does not need to provide these things but city policy and practice should encourage, support and protect such businesses. Our community would greatly benefit from having some fun social options nearby. More than having additional hotels, etc.

Question 10

n/a

Question 10

Need to get the city HR department functional again! I hear of many open positions within the city that are not being filled because HR isn't doing its job.

CITY COUNCIL STAFF REPORT

From: City Manager

Report Type: ANNUAL RETREAT PROGRAM

Lead Department: City Manager

Meeting Date: January 28, 2023

TITLE

Discussion and Possible Revision to 2023 Standing Committee Topics

RECOMMENDATION

Staff recommends that the City Council discuss and accept 2023 Standing Committee Topics.

BACKGROUND/ANALYSIS

The tentative topics and regularly scheduled work that the City Council Standing Committees of Policy and Services and Finance expect for 2023 are included in attachments A and B. The tentative workplans or calendars were created knowing that there will be referrals and other topics that arise.

Work Plan Calendars for Finance Committee and Policy and Services Committee Standing Committees Per the CPP, Section 2 – Council Meeting & Agenda Guidelines, Subsection 2.4, Letter Y (of the existing CPP Handbook, not the proposed revised Handbook):

The purpose and intent of committee meetings is to provide for more thorough and detailed discussion and study of prospective or current Council agenda items with a full and complete airing of all sentiments and expressions of opinion on city problems by both the Council and the public, to the end that Council action will be expedited. Actions of the committee shall be advisory recommendations only.

Referrals for discussion and action at the committee level are referred to Standing Committees by Council action or City Manager (staff) and are made to only one committee (CPP, page 24). The tentative schedules include regularly scheduled work, such as audit updates and budget related reports, as well as any items that have been previously referred, with the date of the referral.

These schedules were shared with the new Chairs, as appointed by the Mayor for 2023 for information purposes given the timing of publishing.

FISCAL/RESOURCE IMPACT

Depending on the nature and extent of revisions sought, direction to revise standing committee topics could involve substantial staff resources.

STAKEHOLDER ENGAGEMENT

These workplans may be amended as schedules adjust and or new issues arise. The newly appointed Committee Chair's Chair Burt (Finance Committee) and Chair Tanaka (Policy and Services Committee) will be coordinated with on committee agenda planning moving forward.

ENVIRONMENTAL REVIEW

This is not considered a project and no environmental review is required.

POLICY & SERVICES TENTATIVE TOPICS CALENDAR 2023

As of January 19, 2023

January

- Mayor appoints Committee and designates Chair; no Policy & Services Committee meeting

February

- Auditor Report *[tentative]*

March

- Update: Summary of Recent Race and Equity Work since late 2022
- Rental Registry Update (linked to Council Referral from Nov. 29, 2021: Renter Protections: Staff to go to P&S with updated language in ordinance for a renter survey and estimates on effort to enforce it for P&S discussion) *[tentative]*

April

- Auditor Report *[tentative]*
- Brief Update on the National Community Survey Plans

May

- Auditor Report *[tentative]*
- Report: Legislative Update

June

- Quarterly Audit Status Report
- Audit Report *[tentative]*
- Update: Summary of Recent Race and Equity Work since March

July

No meeting; Council break

August

- Quarterly Audit Status Report (April-June) *[tentative]*
- Procedures & Protocols Handbook Discussion (Annual Discussion)
- Council Referral from Nov. 29, 2021: Renter Protections: Fair chance ordinance to be reviewed by P&S for analysis on consequences/unintended consequences

September

- Legislative Recap (what passed/didn't pass)
- Referral from 2021: Council Referral – Affordable Housing Funding (from August 16, 2021 Council Meeting)

October

- Quarterly Audit Status Report (July-Sept) *[tentative]*
- Audit Report *[tentative]*
- Quarterly Race and Equity Update: Summary of Recent Race and Equity Work

November

- Legislative Agenda and Guidelines (can also go in December)
- 2024 City Council Priorities Discussion

December

- Informational: Report out on Status of Committee Referrals

Completed or Pending Referrals (status and date of referral):

1. Will follow Housing Element timing: Council Referral from Nov. 29, 2021: Renter Protections: Bring back to P&S [a] proposal and discussion on expanding anti-gouging measure to address loopholes
2. COMPLETED: Council Referral from Feb. 5, 2022: Discussion of Council Values, Strategic Priorities, etc.
3. COMPLETED (Committee work; now at City Council): Revise to the City Council Procedures and Protocols Handbook
4. COMPLETED: Review of National Community Survey Questions with Policy and Services Chair

Item Pending Further City Council Direction:

- Continued Item from November 2021: City Council Referral: Policy and Services Committee to Recommend Strategies to Support and Strengthen Neighborhood Programs, Identify Gaps in Existing Neighborhood-based Services, and Evaluate new Strategies as Proposed in the Colleagues' Memo Regarding a Proposed Program for Neighbor Connection

FINANCE COMMITTEE TENTATIVE TOPICS CALENDAR 2023

Updated on January 13, 2023

January

- Mayor appoints Committee and designates Chair; usually no FC meeting

February

March

- Utilities Advisory Commission Rate Forecasts and Financial Plans: Gas, Electric, Water, Wastewater

April

- Utilities Advisory Commission Rate Forecasts and Financial Plans: Gas, Electric, Water, Wastewater
- Rate Schedule Storm Water Management Fee
- Rate Schedule Refuse Fees

May

- Annual Budget Review: Operating + Capital Five Year Plan
 - daytime meetings, typically 5/9, 5/10, 5/15, 5/23
- Fiscal Year 2023 Municipal Fee Schedule
- Retiree Healthcare Plan and Annual Actuarially Determined Contributions (ADC)- Biannual report, last done May 2022 (FY2022 and 2023 contributions), next scheduled May 2024
- Utilities Advisory Commission Rate Forecasts and Financial Plans: Gas, Electric, Water, Wastewater

June

- Third Quarter Fiscal Year 2023 Financial Report
- Adoption of Fiscal Year 2023 Investment Policy (to be done by June 30 per code)

July

No meeting; Council Break

August

- Evaluation of Printing & Mailing Services levels and service delivery. Referred May 2019. *[tentative]*

September/October

- Accept California Public Employees' Retirement System (CalPERS) Pension Annual Valuation Reports as of June 30, 2022
 - Every 3-4-year review/decision on pension funding policy assumptions next review scheduled for FY 2026.
- JMZ ticket pricing analysis to understand interactions between changes to \$18 ticket, attendance, and cost recovery. Referred September 2022; procurement process underway for consultant, review expected calendar year 2023. *[tentative]*

November

- Discussion and Recommendation to the City Council to Accept the Macias Gini & O'Connell's Audit of the City of Palo Alto's Financial Statements as of June 30, 2023 and Management Letter
- Discussion and Recommendation to Approve the Fiscal Year (FY) 2023 Comprehensive Annual Comprehensive Financial Report (ACFR) and Approve Budget Amendments in Various Funds

December

- Review and Forward the FY 2024 - FY 2032 Long Range Financial Forecast
- First Quarter Fiscal Year 2024 Financial Report
- Informational: Report out on Status of Committee Referrals

Completed Referred Topics:

A full report on the status of Finance Committee referrals and the status can be found [here](#)¹, Item 1 on the December 5, 2022 agenda.

- 1) COMPLETED: FY 2021 Budget: A report or item on the Junior Museum and Zoo six months after it opens and what it would look like to eliminate the General Fund Subsidy through a fully cost recoverable program. Referred in June 2021, Reviewed September 2022.
- 2) PENDING: Planning and Development Services Fee Study. Staff initiated, study is on hold while the Fire Prevention Program organizational study is completed.
- 3) PENDING: Parking Permits Pricing and Parking Permit Funds Financial Status. Staff initiated, review is on hold while post pandemic trends are collected.

City Council Supplemental Report

CITY OF **From: Ed Shikada, City Manager**
PALO Meeting Date: January 28, 2023
ALTO Item Number: 2

TITLE

Supplemental Information: 2023 Council Retreat Presentation and Supporting Materials

RECOMMENDATION

Supplemental Information to assist in the 2023 Council Retreat and selection of the 2023 City Council priorities. Materials include presentation, project status updates, and feedback from Councilmembers and the community

DISCUSSION

The following meeting materials are being transmitted to assist the City Council and public in preparation for the 2023 Council retreat discussion and selection of 2023 Council priorities.

- 1) 2022 City Council Priorities Major Project Quarterly Update (February 6, 2023 Informational Report)
- 2) Priorities recommendations that were not included in the original Policy and Services report on December 13, 2022
- 3) Emails from constituents to the City Council on 2023 Council Priorities (attachment a)
- 4) Presentation materials (attachment b)

2022 City Council Priorities Major Project Quarterly Update (February 6, 2023 Informational Report)

Staff routinely issues City Council Priority project status updates on a quarterly or semi-annual basis in alignment with the Council approved workplan. Included as an informational item on the February 6, 2023 agenda is the most current status of the 2022 City Council Priorities and the major projects approved in the workplans. For ease of reading and reference materials for the Council and community, staff wanted to draw attention to this helpful report.

[2022 City Council Priorities Major Project Quarterly Update \(February 6, 2023 Informational Report\)](#)

Priorities recommendations that were not included in the original Policy and Services report on December 13, 2022

Subsequent to the issuance of the Policy and Service December 13, 2022 report, staff received additional recommendations from Councilmembers regarding initial suggestions for 2023 Council priorities. Below, reflects those additional suggestions.

Councilmember initial suggestions not included in the December 13, 2022 report:

Veenker:

1. Climate action and adaptation
2. Housing, with an emphasis on affordable housing
3. Public services, with an emphasis on public safety

Kou: I would like to continue the 2022 priorities into 2023:

- Economic Recovery and Transition
- Climate Change – Protection and Adaptation (with a focus on biodiversity)
- Housing for Social and Economic Balance
- Community Health and Safety

For ease of review, the complete list of Councilmember (and Council-elect) initial suggestions were:

1. Cormack: For a new priority, add "Redevelop Cubberley Community Center"; for a retained priority, "Climate action mitigation and adaptation"
2. Lauing: Maintain current priorities
3. Lythcott-Haims:
 - Avoid Triggering Builders Remedy
 - Develop Area Plans for regions slated to get bulk of housing
 - Determine Grade Separation Designs
4. Kou: Continue the 2022 priorities into 2023
5. Veenker:
 - Climate action and adaptation
 - Housing, with an emphasis on affordable housing
 - Public services, with an emphasis on public safety

Jan. 25, 2023

For the city council retreat on Jan. 28, 2023.

I would like to see more crime prevention – more police hired.
Why should I feel afraid of going into the Apple Store or Stanford Shopping Center? What about the Midtown area or Charleston Shopping Area.

My concerns are as follows:

- 1) Robberies at the Apple store on University Ave.– more patrols around University Ave.
- 2) Robberies at Stanford Shopping Center – more patrols around the area
- 3) Home burglars at dinner time
- 4) Midtown area - 7 Eleven store, Safeway, and Baskin Robbins Ice Cream.
- 5) More traffic police hired – speeding at 60mph on Alma
- 6) People going through stop signs on Thursday night after Paly games.
- 7) Elderly having purses/wallets stolen or being targeted.
- 8) More police presence around town (visibility).

Thank you.

Dear City Council,

Please make flood protection a priority for 2023 and beyond. Specifically, please renew your city priority of Climate Change and Adaptation for 2023. This year please add the following projects under this priority: the Newell Bridge replacement, explicit support for the full Reach 2 upgrade of San Francisquito Creek and clearing debris before flood season.

I live in the flood zone and improved flood prevention and protection of my home from flooding is imperative for my family's safety and well being.

Thank you,

Dear City Council.

Please make flood protection a priority in 2023. We live in the flood zone and saw knee deep flooded streets at the nearby Duveneck Elementary school during these recent storms.

I am grateful that our storm drains worked so well on our street. However it is imperative that we prioritize the following projects for 2023:

1. The Newell Bridge replacement
2. full support for the full Reach 2 upgrade of San Francisquito Creek
3. clearing debris before flood season.

Thank you!

Respectfully yours,

Caroline Hicks

Dear City Council,

My name is Jane Millman and I live on De Soto Drive in Palo Alto. I was flooded in 1998 and subsequently went to 5 years of JPA meetings following that traumatic event. In 2003 I realized that nothing was going to be done to help me....it was ALL talk, studies, money concerns, more studies, etc. 25 years later, on Dec 31, the creek overflowed again and my street filled contaminated water. My husband and I both had covid at the time so were isolating per the protocol. Fortunately the water did not enter our house, but we were inches away from that happening.

Please, please, please please make flood protection a priority for 2023. Specifically, please renew your city priority of Climate Change and Adaptation for 2023. This year add the following projects under this priority: the Newell Bridge replacement, explicit support for the full Reach 2 upgrade of San Francisquito Creek and clearing debris before flood season. Living in the flood zone, improved flood prevention and protection of our home from flooding is an imperative for our family's safety and well being.

Thank you.

Dear City Council,

Please make flood protection a priority for 2023.

As a long time Palo Alto resident, my home and neighborhood were greatly affected by the recent storms and associated flooding.

Specifically, please renew the city's priority of Climate Change and Adaptation for 2023.

This year, please add the following projects under this priority:

- Newell Bridge replacement
- Explicit support for the full Reach 2 upgrade of San Francisquito Creek
- Clearing debris before flood season.

Improved flood prevention and protection of our homes from future flooding is an imperative for all.

Thank you for your urgent attention to this matter.

Sincerely,
Bill Reller

To the Palo Alto City Council,

As Downtown North homeowners at the edge of the historical San Francisquito Creek flood zone, as shown in the [city's own 1998 flood map](#), we are very concerned with the lack of progress in flood control measures, especially with respect to the Newell and Chaucer bridges.

The urgency of this critical climate adaptation work was made clear by the recent atmospheric river close call, which was just an early warning of the [growing California climate instability](#) that has been [investigated in depth](#) by UCLA/NCAR/Nature Conservancy scientist Daniel Swain.

We very much hope and expect that the City Council and its Finance Committee impart all the required urgency and funding priority to these climate adaptation public works that will protect our homes and civic infrastructure from unfortunately inevitable increases in flood risk.

Thank you for your service to our community

Dear City Council,

First:

Thank you for working so hard to make Palo Alto such a great place to live!

Second:

Please make flood protection a priority for 2023. Our street, Kings Lane, was really flooded on New Years eve and I'm worried about our street.

Specifically, please renew your city priority of Climate Change and Adaptation for 2023. This year please add the following projects under this priority: the Newell Bridge replacement, explicit support for the full Reach 2 upgrade of San Francisquito Creek and clearing debris before flood season.

Clearly our street is in the flood zone and improved flood prevention and protection of our home from flooding is an imperative for our family's safety and well being.

Thank you.

Dear City Council,

My home was flooded in 1998 because the Chaucer Bridge wasn't safe. My daughter, who was turning two and had been looking forward to moving to a bed rather than a crib, decided to stay in her crib until summer because everything touching the floor soaked up dirty flood water and was ruined.

That daughter graduated from college five years ago, and Palo Alto still hasn't fixed Chaucer Bridge. The same creek overtopped on New Year's Eve. My daughter called to check if we were safe. Twenty-five years is a ridiculous delay in fixing a hazard that traumatized a generation of children and families, not to mention other costs to the city and residents.

Please make flood protection a city priority for 2023 and each following year until the Chaucer Bridge is fixed.

In particular, please add the following projects under priorities for Climate Change and Adaptation: the Newell Bridge replacement, the full Reach 2 upgrade of San Francisquito Creek, clearing debris before flood season, and the Chaucer Bridge replacement.

Thank you,
Susan Mittmann

Honorable Members of the City Council:

25 years ago in 1998 my wife and I were roused by our neighbors in the dead of night to haul carpets and furniture upstairs as the muddy overflow from San Francisquito creek filled the street, rose over our lawn, topped the step up to our front door, and then mercifully subsided, having however totaled the minivan we used to take our 3 children (ages 2, 5, and 7) to school and about. We were assured that the replacement of the Pope/Chaucer bridge, the principal chokepoint for the creek because of its low arch, would be a matter of urgent priority.

Our children are grown and out, and this year neighbors sent us video of the muddy overflow from the creek rising half over our lawn, before mercifully subsiding. This time. Our neighbor across the street had her basement flood. She is from China, and I doubt she views with admiration a modern nation that can't accomplish a modest bit of civil engineering in 25 years---even accounting for the various projects downstream that must also have been improved to handle more flow down the creek. This is a *creek* we are trying to handle, not the Mississippi river.

We now have proof that flooding from San Francisquito creek is not a once-in-a-century-or-two sort of problem. It is a two-or-three-times-in-your-lifetime problem. I wish to escape #3.

Yes, the city needs to maintain all the standard services: police and fire, water and power, and the rest. But otherwise replacing this bridge and allowing for more safe flow down the creek is *the* single project that will most improve residents' quality of life, here in Palo Alto and across the creek.

Residents can't do it. Residents can address shortfalls in many other places: in the funding of the libraries; we can clean up and maintain parks; we can pick up trash on the streets. We residents *can't* do civil engineering on a volunteer basis; we can't even make the creek better by ourselves hiring people to help, as we could with other problems. Getting that bridge and creek fixed is something only our government---of which the Palo Alto City Council is a part---can do. Please make your first priority what we residents cannot do for ourselves.

Sincerely yours,
Charles T. Munger, Jr.

Dear City Council, Please make flood protection a priority for 2023.

I live on De Soto Drive. In 1998, we woke up in the middle of the night to find one foot of water in our home, which rapidly increased to two feet as sewage spilled out of our toilets and bathtubs. We were out of our home for 8 months, and lost both our cars, furniture and many possessions.

Imagine our worry as we saw De Soto Drive flood once again on New Year's Eve. Fortunately water did not enter our home this time, but one block away, the garages on Alester were flooded. It's hard to believe that after 25 years the bridges at Newell and Chaucer still put our homes at risk of flooding.

It is imperative that the city priority of Climate Change and Adaptation for 2023 is renewed. In addition add the following projects under this priority:

the Newell Bridge replacement
Explicit support for the full Reach 2 upgrade of San Francisquito Creek
Clearing debris BEFORE flood season.

Improved flood prevention and protection of our home from flooding is an imperative for our family's safety and well being. Thank you.

From: Ted Davids <tdavids@sonic.net>
Sent: Sunday, January 22, 2023 2:17 PM
To: Council, City
Subject: 2023 Priorities for the Council and its Finance Committee

CAUTION: This email originated from outside of the organization. Be cautious of opening attachments and clicking on links.

Dear City Council,

Please include Flood Protection under the Climate Protection & Adaptation Goal for 2023. Last year no flood protection projects were officially included under the Climate Protection & Adaptation Goal.

I am concerned that Palo Alto's basic sources and uses of cash do not address the risks highlighted by the recent rains and flooding. Specifically, please add the following projects under this priority: the Newell Bridge replacement, explicit support for the full Reach 2 upgrade of San Francisquito Creek and clearing debris before flood season, especially cleaning channel debris BEFORE flood season.

Late last year Mr Neilson Buchanan suggested to the Finance Committee to clarify its concepts of financial issues. The list of issues was a great step forward. However, I continue to feel that the list of issues was incomplete. It did not communicate the inherent risks associated with each issue. A list of issues is passive A list of risks communicates urgency.

Now is the time to delegate two risks to the Finance Committee in the context of Climate Protection and Adaption. First, full commitment for the San Francisquito Creek flood zone's staged remedies. This means full and regular disclosure of funding and timelines.

Second, greater disclosure of Palo Alto's commitment to the system of levee protections around SF Bay. I could be mistaken but this risk has received minimal public attention.

Construction on the Newell Bridge was originally scheduled to start in 2021 but construction is now scheduled for the summer of 2024 due to various delays (e.g. lawsuits now dismissed). Please make it a priority to ensure there are no further delays, that the city is doing everything it can to complete this project and support full Reach 2 upgrade of San Francisquito Creek including channel widening and Chaucer bridge as fast as possible.

Thousands of homes are in the San Francisquito Creek flood zone and over the floor flooding means the home becomes inhabitable for 9 months to a year, like 400 homes were in the 1998 flood during an El Nino season. Next winter is predicted to be an El Nino winter so statistically higher risk.

The benefits of replacing Newell Bridge go far beyond flood control. This 113 year old bridge, was designated as functionally obsolete by CalTrans. It is a substandard narrow bridge with no traffic lights, no sidewalk and no bike path. Many parents from East Palo Alto push their baby carriages and walk small children across this bridge on their way to Eleanor Parde Park. The bridge is also used by many to commute to work from East Palo Alto. The new bridge will provide safe sidewalks for pedestrians, safe bike paths and improved car safety.

Thank you again for all the hard work you have done to move the Newell Bridge replacement project so far and please prioritize bringing it over the finish line as funded infrastructure win for the city.

Sincerely,
Ted Davids

Dear City Council Members,

I urge you to make Flood Prevention and Protection, specifically FIX the Pope-Chaucer Bridge!, the City's top priority in 2023! Our home at 1130 Hamilton Ave between Lincoln and Chaucer was flooded in 1998 and after 25 years we should not have to suffer that disaster again! It took us a year and significant financial costs to repair the damage to our home and property and much longer to recover from the emotional stress! Watching the muddy creek water roar down Hamilton Ave and head up our driveway, yards and sidewalk again this past New Year's Eve day was a nightmare! This could have been prevented and should not have happened again!

Your first priority and responsibility is the protection of the safety and well being of residents and their property. Therefore, I urge you to immediately implement whatever actions are necessary to prevent another flooding event. Make this your absolute top priority until the safety and well being of residents and their property is insured.

Respectfully,
Christy Telch

Hello,

Having had more than 2 feet of water in our basement in 1998, we were better prepared this winter with beefier sump pumps and a small Honda generator. Still, it IS frustrating that 24 years later I was back to filling sandbags a few weeks ago. Thankfully, our home on Pitman Avenue has so far not been flooded this year. I AM impressed with the city's work clearing streets and drains, and making sand and bags available to us. But please, don't let work on the Newell and Chaucer bridges get further delayed. Make flood protection and climate adaptation as high a priority as possible.

Thank you,

Harry Dennis
1274 Pitman Ave.
Palo Alto

P.S. - as an infant, in early 1955, I was evacuated from my family's home on Desoto Drive, too! This has been a known problem for WAY too long.

Some people who received this message don't often get email from pkjones1000@icloud.com. [Learn why this is important](#)

CAUTION: This email originated from outside of the organization. Be cautious of opening attachments and clicking on links.

Dear City Council and City Manager,

As you determine the priorities for 2023, I propose that at the top of your list of 2023 priorities, you commit to the following under the Newell Bridge replacement:

(1) complete support for the full Reach 2 upgrade of San Francisquito creek and (2) clearing debris from the creek before flood season.

I understand that we face the risk of another El Niño next year, just as we did in 1998. Please, please find a way NOW to mitigate the possibility of the flooding that occurred in 1998 and partially occurred 12/31/22. Flood damage is absolutely devastating to those affected and completely unnecessary because it can be avoided.

To this end, I ask that you set measurable goals, such as “reduce the risk of local 100-year flooding from the San Francisquito Creek by 50% in 12 months and 100% in 24 months.”

Achieving such goals would give those of us living under the constant threat of flooding much needed peace of mind.

Thank you very much for your attention.

We have lived in Palo Alto on Forest Avenue since 1976. We suffered modest damage in the horrible 1998 flood. We came close to damage again this year. We appreciate that the issue is complicated and that 6 different governmental agencies (Palo Alto, Menlo Park, East Palo Alto, the County of Santa Clara, the County of San Mateo, and the Army Corps of Engineers) are all involved. It is, nevertheless, shameful that the Chaucer Street bridge and solving the whole issue once and for all is still years away. My wife and I VERY strongly request setting flood control as a top 2023 priority by the City Council.

Dear City Council,

I live in the flood zone and improved flood prevention and protection of our home from flooding is an imperative for our family's safety and well-being.

Please make flood protection a priority for 2023. Specifically, please renew your city priority of Climate Change and Adaptation for 2023. In addition, this year, please add the following projects under this priority:

1. the Newell Bridge replacement,
2. explicit support for the full Reach 2 upgrade of San Francisquito Creek and clearing debris before flood season.

Thank you.

Regards
Robert Lipshutz

Subject: 2023 Priorities for the Council and its Finance Committee

CAUTION: This email originated from outside of the organization. Be cautious of opening attachments and clicking on links.

Dear City Council,

Please include Flood Protection under the Climate Protection & Adaptation Goal for 2023. Last year no flood protection projects were officially included under the Climate Protection & Adaptation Goal.

I am concerned that Palo Alto's basic sources and uses of cash do not address the risks highlighted by the recent rains and flooding. Specifically, please add the following projects under this priority: the Newell Bridge replacement, explicit support for the full Reach 2 upgrade of San Francisquito Creek and clearing debris before flood season.

Late last year I suggested to the Finance Committee to clarify its concepts of financial issues. The list of issues was a great step forward. However, I continue to feel that the list of issues was incomplete. It did not communicate the inherent risks associated with each issue. A list of issues is passive. A list of risks communicates urgency.

Now is the time to delegate two risks to the Finance Committee in the context of Climate Protection and Adaptation. **First**, full commitment for the San Francisquito Creek flood zone's staged remedies. This means full and regular disclosure of funding and timelines.

Second, greater disclosure of Palo Alto's commitment to the system of levee protections around SF Bay. I could be mistaken but this risk has received minimal public attention.

Construction on the Newell Bridge was originally scheduled to start in 2021 but construction is now scheduled for the summer of 2024 due to various delays (e.g. lawsuits now dismissed). Please make it a priority to ensure there are no further delays, that the city is doing everything it can to complete this project and support full Reach 2 upgrade of San Francisquito Creek including channel widening and Chaucer bridge as fast as possible.

Thousands of homes are in the San Francisquito Creek flood zone and over the floor flooding means the home becomes inhabitable for 9 months to a year, like 400 homes were in the 1998 flood during an El Niño season. Next winter is predicted to be an El Niño winter so statistically higher risk.

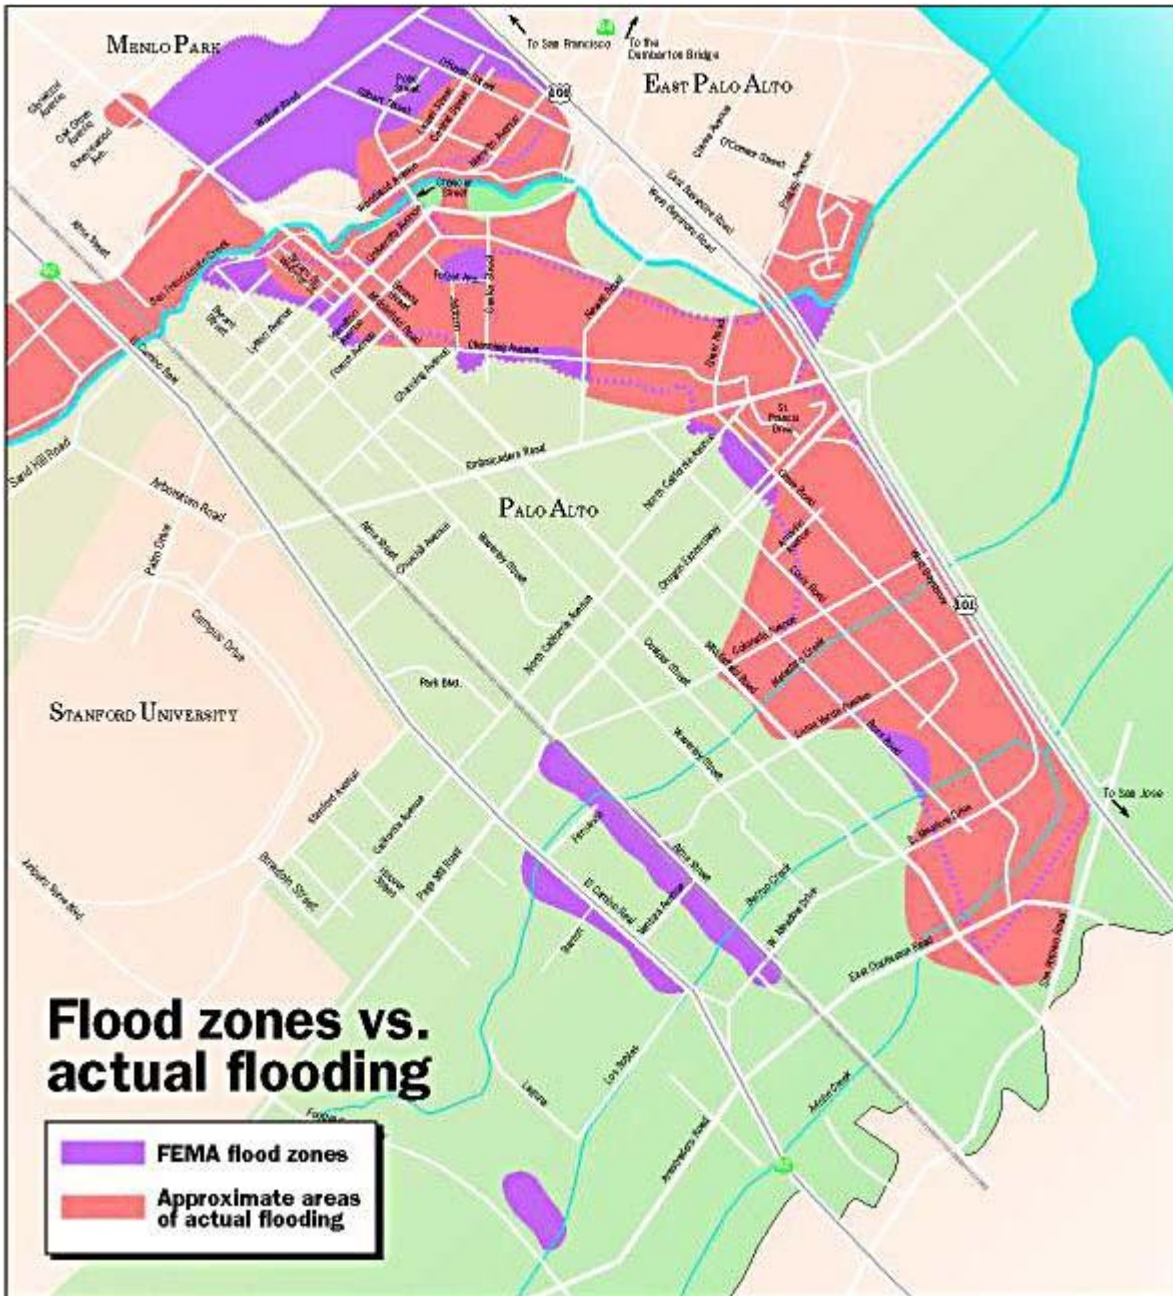

The benefits of replacing Newell Bridge go far beyond flood control. This 113 year old bridge, was designated as functionally obsolete by CalTrans. It is a substandard narrow bridge with no traffic lights, no sidewalk and

no bike path. Many parents from East Palo Alto push their baby carriages across this bridge on their way to Eleanor Parde Park. The bridge is also used by many to commute to work from East Palo Alto. The new bridge will provide safe sidewalks for pedestrians, safe bike paths and improved car safety.

Attachment A Emails to the City Council on 2023 Council Priorities to Continue to Work from East

Thank you again for all the hard work you have done to move the Newell Bridge replacement project so far and please prioritize bringing it over the finish line **as funded infrastructure win** for the city.

PS
As a resident of Downtown North, I tend to be passive about flood risks. However, the recent creek flooding of El Camino Real underpass at University Avenue is a shocking reminder of infrastructure collapse and risk. I had to remind myself of actual DTN flooding. Attached is the 1998 flood map of water that literally went only to a few DTN neighbors' front doors.

I live in the flood zone and improved flood prevention and protection of our home from flooding is an imperative for our family's safety and well being. We were not impacted as much this year as we were in 1998, but we still carry memories of that flood.

I understand that the Newell Bridge project is constrained to only working in the creek for four months each year, but are there other roadside improvements that could start in 2023 that could speed up the overall project?

Thank you.

As a resident in the flood zone, I ask that you renew your City priority of Climate Change and Adaptation for 2023. Please add these projects under that priority:

- Newell Bridge replacement
- Clear support for the complete Reach 2 upgrade of San Francisquiro Creek
- Pre-flood season clearing of debris from the creek

We narrowly missed a much worse outcome recently. Let's not waste time before the next one.

Sincerely,

Barbara Riper

CAUTION: This email originated from outside of the organization. Be cautious of opening attachments and clicking on links.

Dear City Council,

Please make flood protection a priority for 2023.

We have lived near the Creek since 2008 and remain confused and frustrated over the lack of progress from our leaders.

Specifically, please renew your city priority of Climate Change and Adaptation for 2023. This year please add the following projects under this priority: the Newell Bridge replacement, explicit support for the full Reach 2 upgrade of San Francisquito Creek and clearing debris before flood season. The city was not prepared and only was removing debris when it was too late—a baffling situation for a known issue.

I live in the flood zone and suffered flooding from the New Year's flood of the Pope Chaucer Bridge. Improved flood prevention and protection of our home and streets from flooding is an imperative for our family's safety and well being.

If you choose not to be proactive on the above initiatives, then please (i) find a way to clean sidewalks so that people do not slip (or be forced to walk in the streets and dodge cars) and (ii) also set aside funds to reimburse us for our damage while we wait and for doing your job in cleaning up the neighborhood. You probably noticed that most of us were cleaning up our neighborhoods...while inspiring as a neighborhood, it is representative of the shortcomings of the council.

Thank you,

Nadine

INTRODUCTION TO ANNUAL GOAL PROCESS

- 9:00 am Roll Call & Welcome from Mayor
- 9:45 Council Retreat Overview and Discussion of Community Survey Results Status
- 10:00 Overview of 2022 Council Priorities
- 11:30 Public Comment
- 12:15 pm Lunch Break
- 1:00 Selection of 2023 City Council Priorities
- 2:00 Discussion/Revision to 2023 Standing Committee Topics
- 2:30 Retreat Debrief, Take Away and Next Steps
- 3:00 Adjournment

COUNCIL PRIORITIES OVERVIEW

- Since 1986, this Council has established Policy Priorities
- Policy anticipates between 1 - 3 Council identified topics will receive, unusual **and significant** attention in 2023. Topics may remain priorities for up to 3 years
- Goal setting is supplemented by input through 2022 Open City Hall, staff input, the National Community Survey, review of work plans and resident testimony today

Feedback

Themes from Community Input

SURVEY STRUCTURE

- Over the past several years, the survey has typically asked the community to share feedback as an open field.
- This year we added additional questions/rankings to gain a sense of community perceptions about each 2022 Council priority
- 10 questions in total

SURVEY STRUCTURE

Question 2.

Please rate how we are doing on the 2022 Priority "Economic Recovery and Transition" [5 being the best]

37% ranked 3-5
21% ranked 1-2
42% no response

Question 4.

Please rate how we are doing on the 2022 Priority "Climate Change - Protection and Adaptation" [5 being the best]

33% ranked 3-5
33% ranked 1-2
34% no response

SURVEY STRUCTURE

Question 6.

Please rate how we are doing on the 2022 Priority "Housing for Social and Economic Balance" [5 being the best]

28% ranked 3-5
34% ranked 1-2
38% no response

Question 8.

Please rate how we are doing on the 2022 Priority "Community Health and Safety" [5 being the best]

35% ranked 3-5
28% ranked 1-2
37% no response

COUNCIL PRIORITIES SURVEY THEMES

Economic Recovery and Transition

- Focus on small business, supporting business in general, and creating a more business friendly city
- Increase service levels in Planning
- Diverse opinions on increasing business taxes and reducing or eliminating business taxes
- Fill vacant retail and office spaces
- Have more events and fun/entertainment options
- Diverse opinions on keeping streets closed and to re-open closed streets

Climate Change – Protection and Adaptation

- More resources for climate change programs
- Expand Safe Routes to School and other mobility items
- Strengthen public transportation, active transportation, and bike infrastructure
- Increase recreation and open space
- Focus on electrification
- More electric vehicle charging incentives and options
- Focus on S/CAP execution
- Replace Pope/Chaucer and Newell Creek bridges and address flooding issues

Community Health and Safety

- More focus on Public Safety
- Reduce airplane noise and traffic
- Improvements to major thoroughfares and other infrastructure (road conditions, crosswalks, sidewalks, bike-ability, tree upkeep)
- More wellness programs
- Budget for more police officers and firefighters
- More police presence in the community
- Emphasis on residential burglaries and criminal activity
- Code enforcement (leaf blowers, parking, speeding)

SURVEY THEMES

Housing for Social and Economic Balance

- Diverse opinions on increasing and building more housing and removing housing as a priority for the Council in the coming year
- Transit-oriented development – housing near jobs, shopping, services, transit
- Make affordable housing easier, less expensive to build
- Affordable and affordable senior housing
- Rent control
- Remove short-term rentals
- Approve a compliant Housing Element
- Promote more types of housing (multi-family, small apartment, ADUs)
- Convert office space and empty buildings to housing
- Establish short-term housing options for homeless population
- Safe RV parking program

Other Themes

- More public services for the low-income community
- Move forward with the Grade Separation project
- Hire more staff resources in these areas: Transportation, Planning, Police, Fire, Palo Alto Junior Museum & Zoo, HR
- Focus on local issues only
- Balanced focus of priorities geographically across the City
- Address car traffic along major arteries
- Less focus on electrification and reducing natural gas use
- Diversity
- Climate Change, Housing, and Community Health & Safety should not be priorities.
- Climate change issues should be left to the state/federal
- Removing housing was sometimes related to including it in addressing climate change or removing it.

2022 ADOPTED PRIORITIES

Economic Recovery and Transition (ERT)

Climate Change - Protection and Adaptation (CCPA)

Housing for Social /Economic Balance (HSEB)

Community Health and Safety (CHS)

2022 Priority – ERT

Economic Recovery and Transition

ECONOMIC RECOVERY AND TRANSITION (ERT)

- || 1. Downtown Business Improvement District (BID)
- ✓ 2. Economic Development Request for Proposal (RFP)
- 🕒 3. Economic Dev Committees for Downtown & California Ave.
- ✓ 4. Retail and Retail-Like Land Uses and CUP Thresholds
- 🕒 5. University Avenue Streetscape Design Project
- 🕒 6. California Avenue Closure and feasibility study (car-free streets)
- 🕒 7. Ramona Street Closure and feasibility study (car-free streets)
- 🕒 8. Build Out Fiber Backbone as Foundation for Fiber-to-the-Premises (FTTP)
- 🕒 9. Electronic Plan Review RFP to integrate with Accela
- ✓ 10. New Parking Facilities in the University Avenue Downtown (potential BMH site)
- || 11. California Avenue Subscription Parking (Commercial)
- 🕒 12. Citywide Retail Recovery Ordinance
- 🕒 13. Retail Preservation

**85% of 2022 ERT Projects
are either Complete ✓
or On Track 🕒**

- Award of contract for comprehensive economic development strategy (ERT2)
- 'Car-Free Streets' on Cal Ave. and Ramona interim design standard updates (ERT6 & ERT7)
- Issuance of Request for Information for New Parking Facilities in University Avenue Downtown and Below Market Rate housing (ERT 10)
- Extension of interim ordinance for Retail and Retail-like land uses through June 2024 (ERT 12)

ERT: Work to Continue in 2023

- Developing plan to reimplement Business Improvement District (ERT1)
- Economic Development Committees (Downtown and California Ave.)(ERT3)
- University Avenue Streetscape Impv. (ERT5)
- Fiber Backbone to facilitate Fiber-to-the-premises (ERT8)
- Improve Electronic Plan Review (ERT9)
- Evaluating Citywide Retail Recovery Ordinance and efforts at retail preservation (ERT12)

-  Comprehensive Economic Development Strategy by Streetsense - Implementation
 - Council review and direction on the priorities within the strategy
 - Implementation of strategy recommendations
-  Implementation of Measure K, new Business Tax: outreach & stakeholder engagement, development, implementation, and administration
-  Parklet Standards: integrating into other City efforts (Car-Free streets, University Ave Streetscape)
 - Downtown parking & below market housing RFI responses
 - Council review and direction on next steps and priorities

2022 Priority – CCPA

Climate Change-Protection & Adaptation

CLIMATE CHANGE: PROTECTION & ADAPTATION (CCPA)

- 🕒 1. Municipal Code Amendments to Facilitate PV, ESS, EVCS and Heat Pump (Water/Furnace) Installations
- 🕒 2. Permit/Inspection Streamlining for Electrification Projects
- 🕒 3. Valley Water Purified Water Facility at LATP Area B
- 🕒 4. Sustainability/Climate Action Plan (S/CAP) update
- ✓ 5. Advance Residential Home Electrification Strategy
- 🕒 6. Grid Modernization to Prepare for Electrification
- 🕒 7. Implement Advanced Metering Infrastructure (AMI)
- ✓ 8. Advance Commercial Electrification Retrofit

100% of CCPA Projects
are either 
Complete  **On Track**

- Community Engagement:
 - S/CAP Ad Hoc Committee meetings
 - Working Group and Teams
 - Making Better Choices in Your Home workshop
- Heat Pump Water Heater Program (development and approval, CCPA5)
- Launched commercial rooftop heating/cooling pilot (CCPA8)
- Reach Code items (development & approval)
- S/CAP Goals & Key Actions (Council acceptance, CCAP4)
- Established new carbon neutrality goal

Where are we headed in 2023?

- Implementation & scaling of HPWH program
- S/CAP 3-yr workplan CEQA analysis and workplan approval by Council
- Pivot S/CAP work to the implementation of approved strategies and programs

Governance and Council Engagement

- S/CAP Ad Hoc Committee for 3rd year (appointed by Mayor)
- Council guidance needed:
 - Scope of 2023 S/CAP Ad Hoc Committee
 - Council and Board & Commission engagement
 - Longer- term governance

CCPA: 2023 Changes & New Priority Project

Key projects for 2023 (S/CAP 3-Yr WorkPlan):

- Gas and Electric Utility Electrification Infrastructure Changes
- Heat Pump Water Heater Program Implementation and Expansion
- Commercial Rooftop HVAC Prog. Launch
- 🏠 EV Strategic Planning
- 🏠 Reliability & Resiliency Strategic Planning
- 🏠 S/CAP Resource Needs & Funding Sources Study
- Bicycle & Pedestrian Transportation Plan Update

Additional 2023 Project Areas:

- 🏠 Newell Road Bridge Replacement (CHS)
- San Francisquito Creek Reach 2 Flood Protection Project Support
