Subject: Jobs report and benchmark revisions
Date: Friday, September 16, 2022 10:40:58 AM

CAUTION: This email originated from outside of the organization. Be cautious of opening attachments and clicking on links.

Hi,

Today's state job report showed only modest job growth and a rise in unemployment. I will write more later.

But as you consider today's news, there is another piece of recent news that is very positive.

Each fall BLS issues revisions to the March job estimated (March 2022 this year) based on actual payroll data not estimates.

The top line numbers are 462,000 more jobs (+0.3%) for the nation and 172,200 more jobs (+1.0%) for the state.

If the 172,200 job upward revision is added to the August job estimates, the state would now exceed the pre-pandemic level by 4.5% instead of recovering 98.3% of lost jobs.

Below are the national, state and metro area links.

<https://www.bls.gov/web/empsit/cesprelbnk.htm>

The national revisions show gains in transportation and warehousing, leisure and hospitality, professional and business services, information and wholesale trade and downward revisions in retail (large) and government.

<https://www.bls.gov/sae/publications/preliminary-benchmark-announcement.htm>

The metro area revisions show gains in Southern California, Sacramento, San Diego and SF metro areas and a small downward revision in the San Jose metro area.

Steve

So Andrew did you watch the video? Can you stomach having a weaponized canine unit after watching the short 15 min documentary, part 13 ? If so do think its your white skin that makes it ok to continue this vicious and vile practice? Its all about race and you know it. I've grown up and grown old in this town— so now I must say NO more weaponized canines NOT in my name and NOT with my tax dollars.

Best, aram

P.S. Think on it Andrew. Its past time for a culture change. You and I both know this police canine culture is a white man's thing—to keep black and brown bodies under the vestige of slave master mentality. NO MORE!
NO MORE!

On Sep 17, 2022, at 9:52 PM, Aram James <abjpd1@gmail.com> wrote:

FYI: We will start at the end: Part 13 of *Mauled: When Police Dogs Are Weapons*. (A short documentary asking the provocative question: Can a dog be trained to be anti-black)?

Andrew Binder et all: Critical u watch this if you claim we should continue to spent \$500,000 per year on a canine unit here in Palo Alto —not including law suits and the cost to defend lawsuits growing out of attacks on community members by weaponized canines.

The PAPD refuses to release body-worn camera footage of canine attacks to keep the truth of these violent and vile attacks from our eyes.

Andrew Binder you can't claim to be a transparent police chief while acting to keep the truth from our community. You can't have both ways.

Best regards,

Aram James

Hi Mark,

Thanks for adding your voice to those of us who are speaking out against the use of weaponized police canines here in Palo Alto. Canines that seriously injury our fellow human beings with long time physical and mental scars. Chief Andrew Binder I hope you are listening.

Time to Ban Police Canine Units Now!

Aram

<paloaltofreepress@gmail.com> wrote:

The trauma of a dog bit can last a lifetime. 6 years old at the time now 71. As a child leaning to riding my bike we we're living in East Palo Alto Illinois Street off of Bay Road at the time I was attacked by a dog that latched onto my leg.

The owner was traumatized as he assist my mom transporting me to the emergency on Homer Ave and whisked me into the emergency room. I remember, everything so vividly the white mussel tissue oozing from both sides of my legs. I still bare the scares they look like someone had shot me through the cafe of my leg.

Interesting it the small bread dogs that scare me the most.....I can only imaging the horror of the Palo Alto Police K9 handler giving the verbal comment to attack as the dog rips the flesh of his bones. It's sick and demented to think a human would unleash such terror onto a another human and a lifetime memories the follow.

Unfortunately, Andrew does not possess the mental capabilities to recognize the brutality, pain, and trama that can last a lifetime let alone the the young mother, my mom, seeing her son agonizing to pain... Police must be trained to ignore it visually I would imagine like Andrew and all sensibility.

Well....that would be like talking into the wind.... Rosen does not respond well to any criticism... He has a tendency and propensity to not address the most difficult questions.

Not even a shot of Viagra would make any difference..... The guy is absolutely flaccid.....

Furthermore, I believe the entire Palo Alto police department is inebriated... the Gennaco reports makes it very clear the PAPD has an alcohol and drug problem...

Not even published reports, stated facts, can move the Palo Alto city Council to take any action, they too are impotent.

Hi Palo Alto Free Press:

I believe the case you are discussing involves former Palo Alto Police Officer Thomas DeStefano who was also the officer who allegedly violently attacked Julio Arevalo at the Happy Donuts on July 10, 2019.

DeStefano's attack, all caught on Happy Donuts surveillance tapes as well as on body-worn camera footage— recently settled for \$150,000 (May 2022). See first link below for newspaper account of the incident and the subsequent settlement.

The second linked article discusses DeStefano's other issues while with the PAPD. DeStefano left the department in 2021. Andrew Binder would not say if

DeStefano was fired or left the department voluntarily.

If you want to know why Thomas DeStepano was NOT prosecuted for his ugly attack on Julio Arevalo you need to ask our recently re-elected district attorney Jeff Rosen.

The second article also discusses the lawsuit brought by six officers against the city for allowing and paying for the beautiful BLM mural.

Best regards,

Aram James

III. Misconduct Investigations

“The criminal allegation against the officer was ultimately settled through a negotiated plea deal”.

*“The Department found that the officer had violated policy by leaving the scene of the traffic accident without attempting to contact his neighbor or otherwise take responsibility. An additional and related policy violation – concerning “unbecoming” conduct that reflected poorly on the Department – was also sustained. Finally, the Department found that his inaccurate and incomplete notification to a supervisor in the aftermath of the incident was also a violation”.

*** California Penal Code**

§20001 applies when a driver leaves the scene of an accident, without leaving

identifying information, and someone other than the driver was injured or killed. Penal Code § 20001 can be charged as a misdemeanor or as a felony.

(What the DA does not want the general public to know) Again if this was a civilian, the DA would have thrown in the book at him.

Police officers in just about every case involving the county of Santa Clara district attorney's office receives a plea deal.....

There's more.....

<paloaltofreepress@gmail.com> wrote:

Tragic Loss of life. This just illustrates police officers are humans and susceptible to the same frailties as all of us. These stories are repeated far too often and the news media.

Was is this just a casual use fentanyl or is the problem more widespread within the rank and file of the San Jose Police Department..Up to the Police chief?

And what actions are being taken to ensure the safety of San Jose and its citizens. We already know alcohol, and

its consumption is one big problem for the Palo Alto Police Department.

That's well documented and can be confirmed by Mr. Zachary Perron who transferred one of his colleagues from the San Jose city jail back to the Palo Alto Police Department.

There were two other reported instances a Palo Alto police officers intoxicated behind the wheel while on duty. They felt the department with a FULL pensions before any intervention or discipline could take place.

So I believe, it would be rather appropriate, next time you're stopped by the Palo Alto Police Department on a alleged vehicle violation ask the police officer when was the last time he was drug and alcohol tested.

Vicki,

Here is a little more language (see below) from the **Mauled: When police dogs are weapons** series that might be helpful in seeing just how vile and racist weaponized police canines have been in upholding white supremacy historically and now-including in Palo Alto.

Think about what you were quoted as say in today's Daily Post.I say its past time to tell our new police chief, Andrew Binder, we want nothing to do with a weaponized canine unit in Palo Alto.

Best regards,

Aram James

In his research, Parry and his colleague have found that K-9 unit tactics similar to those

seen in Indianapolis and other parts of the country around this time mimicked those used in apartheid South Africa and during the tracking of Australian Aboriginals, which speaks to the systemic use of police dogs as a form of white control over people of color.

"Dogs," Parry said, "are one of the primary fixtures from colonization all the way up to the present that have served as a symbol of terror for nonwhite people.

Adding my voice to Aram's,

It is indisputable that police dogs are cruel, abusive, and unnecessary. Also, it is an unacceptable way to treat dogs, as any environmentalist knows.

Another way to look at this issue is from the perspective of the [17 Global Sustainable Development Goals](#) which must be achieved by 2030 to avoid irreversible calamity on Earth (<https://www.globalgoals.org/goals/>). The use of police dogs interferes with Goals 10 (reduced Inequalities), 11 (sustainable cities & communities), 15 (life on land), and 16 (peace, justice, & strong institutions). We cannot continue to engage in unsustainable practices if we are serious about saving people and planet. There is no time to waste.

From: [Mimi and Eric Carlson](#)
To: [Planning Commission](#)
Subject: Proposed Development at 660 University
Date: Sunday, September 25, 2022 1:15:02 PM

You don't often get email from mimianderic@hotmail.com. [Learn why this is important](#)

CAUTION: This email originated from outside of the organization. Be cautious of opening attachments and clicking on links.

Not since the Preliminary Hearing has anything been heard about the proposal for 660 University Avenue. In that time, the developers have agreed to slightly reduce the number of units to be built and modestly increase the percentage of *low income housing*.

On behalf of the approximately 50 residents of the Hamilton, which is adjacent to the south of 660 University, I would like to point out that even the reduced proposal will cause severe traffic and parking impacts on University Avenue, Byron Street, and Middlefield Blvd.

The first major impact will be from the congestion caused by adding several hundreds trips per day [regardless of what street is used for the entrance/exit for 660] University because the traffic will be trying to enter/exit the street from less than 1 block from the intersection. This intersection is already quite busy during most of the day, and adding additional ingress and egress turns so close of the intersection certainly cause severe congestion.

The second major impact will be the overflow traffic onto Byron Street for the cars from 660 University that want to turn left but will have to cross one lane of traffic to do so (again regardless of which street is chosen for the entrance/exit for 660) and instead will choose to make 3 right turns including one onto and one off of Byron, which is effectively a one-way street because of all the cars that park on it.

Finally because of the difficult entrance and exit into the parking garage, which will be under 660 University and because of the complicated stacking proposal for this garage parking, much, if not most, of the parking for 660 will attempt to be on-street, which will further congest both University and Byron streets.

The lower density and trees surrounding the intersection of Middlefield and University now offer a pleasant transition between the commercial sections on downtown University and the residential sections that stretch out to Highway 101. The proposed project will greatly reduce the trees and intensity (enlarge) the buildings around the intersection, thus making the transition much more abrupt and acute.

In summary, the proposed development at 660 University will cause both traffic and parking issues around the intersection of University and Middlefield, and will make the traffic and parking situation on Byron untenable. Since the residents near this area are mostly senior citizens, both their pedestrian and driving safety will be negatively impacted.

When this proposal comes before you, we urge you to restrict development to the current density, or certainly to no greater than the current density zoning.

Thank you for your consideration of this matter, which is of utmost importance to the residents of this area.

Eric Carlson

> Aram's letter to Josh Becker:
>>
>> Hi Josh, (State Senator Josh Becker)
>> It is critical that you vote for my friend and brilliant attorney and environmentalist Rebecca Eisenberg for the Santa Clara County Water District seat # 7. See the extraordinary San Jose Mercury News endorsement for Rebecca below. Josh please don't let me down on this one our water policy is too critical to leave in the hands of Rebecca's opponent.
>>
>> Best regards,
>>

>>>
>>>>
>>>>
>>>>> Please everyone give Rebecca Eisenberg a BIG SHOUT OUT for securing the very very important San Jose Mercury News endorsement for the district # 7 seat
>>>>> on the Santa Clara County Water Board.
>>>>>
>>>>> The endorsement (see below) by the San Jose Mercury News was extraordinary and details the stark differences between Rebecca and her outmatched opponent.
>>>>>
>>>>> Sincerely,
>>>>>
