

# Neighborhood Petition Request for Traffic Calming Form

We, the residents of \_\_\_\_\_, would like the Office of Transportation to initiate a Traffic Calming Study on the listed streets in our neighborhood to address the stated concern.

**Please note:** A request for traffic calming on one or a few streets must include a petition signed by 25 percent of the households on each block where action is requested. A household is defined as any owned or rented living unit with its own street address, regardless of how many people live in the unit. Each household is represented by one signature, regardless of the number of people in the household. The street(s) for which traffic calming is requested must have at least 50 percent of the total street frontage developed in, or zoned for, single or multiple family land uses.

The process requires the proposed/requested location to meet certain minimum criteria (traffic volume, speed, etc) in order to be considered for any traffic calming measures. The neighborhood boundaries are then established as the project moves forward to engage/gain support in processing and gaining approval from the residents of the traffic calming elements in accordance with the Neighborhood Traffic Calming Program.

Please provide the brief description of the concern:
