CITY OF PALO ALTO UTILITIES
Issued by the City Council

NON-RESIDENTIAL IRRIGATION WATER SERVICE

UTILITY RATE SCHEDULE W-7

Drought Surcharges (deactivated):

A drought surcharge will be added to the Customer’s applicable commodity rate when the City Council has determined that a Water reduction level is in effect for the City as described in Section D.3. The drought surcharges in the table below are measured in dollars per hundred cubic feet (ccf).

Water Usage Reduction level	Level 1 (10/15%)	Level 2 (20%)	Level 3 (25%)
Surcharge	0.53	1.25	2.02

D. SPECIAL NOTES:

1. Calculation of Cost Components

The actual bill amount is calculated based on the applicable rates in Section C above and adjusted for any applicable discounts, surcharges and/or taxes. On a Customer’s bill statement, the bill amount may be broken down into appropriate components as calculated under Section C.

2. Commodity Rate

The Commodity Charge is based on the water delivery rate per the San Francisco Public Utility Commission (SFPUC) Water Rate Schedule W-25: Wholesale Use with Long-Term Contract. The Commodity Charge will be passed through automatically via periodic rate adjustments to account for increases in wholesale water charges, as well as inflation. The pass-through period will be effective for fiscal years 2025 through 2029, inclusive. Customers will be provided notice of any adjustments via their billing statements or by any other mailing by CPAU to the customer’s regular billing address.

3. Drought Surcharge

During period of Water shortage or restrictions on local Water use, the City Council may, by resolution, declare the need for citywide Water conservation at the 10/15%, 20% or 25% level. While such a resolution is in effect, a drought surcharge will apply. The purpose of the drought surcharge is to recover revenues lost as a result of reduced consumption.
